The Statement of Accounts and Statistical Returns for the year ended the 31st December, 1913, is presented with this Report.

The Accounts are prepared in the new form prescribed by the Railway Companies (Accounts and Returns) Act 1911. They cover the whole year and are compiled on a different basis from that hitherto adopted in the preparation of the Half-yearly Accounts and consequently the usual comparison of figures cannot on this occasion be given.

The amount expended during the year on Capital Account is £92,523 : 14 : 4, details of which are given in Account No. 5.

The sum available for Dividend on the Ordinary Stock, as per Account No. 9, is £204,422 : 10 : 7. The interim Dividend of 5 per cent., which was paid on the Ordinary Stock for the six months ended the 30th June, 1913, absorbed £100,062, leaving a balance of £104,360 : 10 : 7, which will admit of the payment of a Dividend of 5 per cent. for the six months ended the 31st December, 1913, making 10 per cent. for the year, carrying forward a balance of £4,298 : 10 : 7.

The Dividends paid on the Ordinary Stock for the year 1912 were 2 per cent. for the six months ended the 30th June and 5 per cent. for the six months ended the 31st December, making 7 per cent. for the year with a balance carried forward of £3,070 : 8 : 8.

The retiring Auditor is Mr. George Rae Fraser, who offers himself for re-election.

Several Bills have been deposited by Local Railway Companies proposing to affect lands in which your Company are interested, and otherwise affecting the Company's interests, which are receiving the careful attention of your Directors.

STATEMENT OF ACCOUNTS

FOR THE YEAR ENDING 31st DECEMBER, 1913.

TO BE SUBMITTED TO THE SHAREHOLDERS AT THE ORDINARY YEARLY GENERAL MEETING OF THE COMPANY, TO BE HELD AT 134, PALMERSTON HOUSE, BISHOPSGATE, LONDON, ON THURSDAY, THE 19TH DAY OF FEBRUARY, 1914, AT NOON.

The Accounts for the year ending the 31st December, 1913, duly audited, are herewith submitted, and for the guidance of the Shareholders, the results are shown below in the old form as far as possible :—

	December, 1913	*December*, 1912	*Increase*	*Decrease*
Gross Receipts	£146,499	£123,372	£23,127	—
Gross Expenditure	£88,247	£78,865	£9,382	—
Balance of Revenue	£58,252	£44,507	£13,745	—
Add balance brought from last year's account	Nil.	233	—	£233
Total Net Revenue	£58,252	£44,740	£13,512	—
Less Fixed Charges and Interest on Debenture Stocks as per account No. 9	£40,402	£40,491		£89
Balance	£17,850	£4,249	£13,601	—
Less special appropriation in reduction of Suspense Accounts	£4,000			
Balance available for Dividend	£13,850			

The Gross Receipts are the largest in the Company's history, and the same may be said of the Balance available for Dividend, which enables the Directors to recommend the payment of the full Dividends of 4 per cent. per annum upon the FIRST and SECOND Preference Stocks for the year 1913, carrying forward a balance of £1,375 to the next Accounts.

Reference has already been made in previous Reports to the large Colliery and other developments going on in the District served by the Brecon and Merthyr Railway, and the Directors feel that the provision of further Capital can no longer be deferred without seriously prejudicing the Company's interests. They have therefore given notice for the promotion of a Bill in the present Session of Parliament to enable them to raise the further sum of £100,000 by the creation and issue of Debenture Stock. After very careful consideration your Directors have come to the conclusion that the most desirable method of raising this further Capital is by the issue of a Redeemable Stock, ranking in priority to the existing "A" and "B" Debenture Stocks, and the Bill has been deposited in this form.

The Proprietors will have gathered from recent Directors' Reports that while the Company's prospects are excellent the Cash position is not so satisfactory, and the Directors feel that it would be unfair to all concerned to continue to meet the Company's Capital requirements out of the Current Revenue of the Company. They therefore confidently recommend all interested to support the proposals for raising further Capital.

It is intended to take advantage of this Bill to get rid of the disability attaching to the "A" and "B" Debenture Stocks of the Company, by which interest thereon is at present payable Half-yearly on the 1st March and the 1st September, instead of January and July, which latter dates are now to be substituted.

The only other Railway Bill affecting the Company's interests, is that of the Alexandra (Newport and South Wales) Docks and Railway Company, in which power is sought to abandon the authorised line paralleling the Brecon and Merthyr at Bassaleg, and an arrangement has been come to by which your Railway will be used.

The vacancy on the Board caused by the death of Mr. E. M. Underdown, K.C., has been filled by the election of the Right Hon. Lord Tredegar.

The Directors retiring by rotation are Messrs. David Davies, M.P., and Samuel Gurney Sheppard, who, being eligible, offer themselves for re-election.

Mr. Charles Fox, F.C.A., retires from the office of Auditor, and offers himself for re-election.

W. BAILEY HAWKINS, Chairman.
H. R. PRICE, Secretary.

10th February, 1914.

DIVIDENDS WILL BE PAYABLE ON MONDAY, 2nd MARCH, 1914.

THE BRECON & MERTHYR TYDFIL JUNCTION RAILWAY.

REPORT OF DIRECTORS.

The Accounts for the year ended 1st November last, which have been duly audited, are presented herewith.

The Gross Receipts for the whole undertaking amounted to £14,332 0s. 1d., as compared with £13,403 16s. 6d. in the previous year, and the Gross Expenditure amounted to £13,325 16s. 2d., as compared with £13,015 16s. 0d., showing an increase in Receipts of £928 3s. 7d. and in Expenditure of £310 0s. 2d.

The profit in respect of Railway Working (see Account No. 8) amounted to £1,085 5s. 10d., while the net profit on the whole undertaking amounted to £1,006 3s. 11d. This sum has been placed to the credit of the Guaranteeing Baronies, as compared with the sum of £388 0s. 6d. for the year 1912, showing an increase of £618 3s. 5d.

The Receipts in 1913 were the highest in the history of the Company, and were £925 11s. 8d. above the previous best year (1911), while the Expenditure increased by only £310 0s. 2d. over the previous highest year (1912).

Your Directors successfully opposed in Parliament the Arigna to Collooney Railway Bill, referred to in their last report. They believe that its construction would have been injurious to the interests of this Company.

Application has been made to the Treasury for a free grant of £12,000 to enable the Company to construct a mineral line of 3¼ miles to connect their line at Arigna with the coalfields around the Arigna Valley, and a Bill is being promoted in the present Session of Parliament for that purpose.

The Directors who retire by rotation are :—Messrs. R. H. Johnstone, D.L., and George F. Stewart, D.L. They are eligible and offer themselves for re-election.

The Auditors, Messrs. O. H. Braddell, I.S.O., and W. B. Carson, also retire, and offer themselves for re-election.

H. J. B. CLEMENTS, *Chairman.*

REPORT.

Your Directors beg to submit herewith the Accounts for the Year ended 31st December, 1913, duly certified by your Auditors.

After placing to Reserve Account a sum of £500, and providing £2,000 for Locomotive Renewals there remains as shown in Account No. 9 a balance of £16,613 12s. 1d., of which the Dividends for the Half-year on the Preference Stocks will absorb £7,983 19s. 7d., leaving available a balance of £8,629 12s. 6d. Out of this balance the Directors recommend that a Dividend at the rate of $4\frac{1}{4}$ per cent. per annum be declared on the Ordinary Stock for the Half-year ended 31st December, 1913, making with the Interim Dividend declared in July last $3\frac{5}{9}$ per cent. for the Year, and that a balance of £3,529 12s. 6d. be carried forward to next Year's Account.

The Board have prepared a Scheme under the powers conferred by the Company's Act of 1909, for the Consolidation of the Company's first five Preference Stocks into one Consolidated Guaranteed Preference Stock, to be entitled to a Cumulative Dividend at the rate of 4 per cent. per annum. The Scheme does not involve any increase in the amount of the Dividends paid at present, and the Board hope to submit same at an early date to Special Meetings of the Preference Stock-holders. If approved of by them, it will then be submitted to the Holders of the Ordinary Stock.

The following Directors retire by rotation, viz:—Mr. Theodore F. Carroll, Mr. Savage French, and Colonel J. M. Sugrue.

Mr. W. C. L. Sullivan the retiring Auditor, also offers himself for re-election.

A Form of Proxy is enclosed, and any Proprietor unable to attend in person is requested to sign and return it so as to reach the Secretary not later than 12 o'clock on Tuesday, 17th February.

REPORT OF THE DIRECTORS

To the Shareholders at their Ordinary General Meeting, to be held at the Offices of the Company in Westminster, on Thursday, the 12th day of February, 1914.

1. The Directors submit their Report and the Accounts of the Company for the year ended the 31st December, 1913, being the twenty-seventh year of the Company's operations. The Accounts have been prepared in compliance with the requirements of the Railway Companies (Accounts and Returns) Act, 1911

2. The Capital expended during the year on additions to existing works has amounted to £81,537 15s. 7d.

3. The Balance available for Dividend for the Year to 31st December, 1913, as shown in Account No. 9 is £99,383 0 6

The Directors recommend that the balance should be appropriated as follows:—

Dividend @ 4% per annum on Preference Shares ...	£40,000 0 0	
Dividend @ 4% per annum on Preferred Ordinary Stock of 1896	20,000 0 0	
Dividend @ 3% per annum on Second Preferred Ordinary Shares of 1901	6,000 0 0	
Dividend @ 1% per annum on Ordinary Shares ...	26,000 0 0	
	92,000 0 0	92,000 0 0
Of which there has been paid by way of Interim Dividends on the various Shares and Stock, at the same rates, for the Half-Year to 30th June, 1913, £46,000.		
Balance carried forward to next Year's Account		£7,383 0 6

4. The Import and Export Trade at the Bute Docks for the year 1913 amounted to 13,676,941 tons, being an increase of 1,264,970 tons over that of 1912, and the largest amount of traffic hitherto recorded at the Docks. Unfortunately, however, this increase was secured at a considerable additional cost per ton of traffic dealt with.

5. The Directors regret to report that the Bill promoted by the Company for securing increased charging powers, after passing Committees of both Houses, was rejected on the third Reading in the House of Commons.

6. A Bill has been deposited for extending the periods for acquisition of lands and completion of works for certain authorised railways and other works of the Company, and for other purposes.

7. Unforeseen delay has occurred in the progress of the work in connection with the new Cold Storage Works and the additional Coaling Cranes, for completing the equipment of the Queen Alexandra Dock, owing to the difficulty in obtaining delivery of appliances and materials which was caused by numerous strikes and labour troubles at the works of the various Contractors.

8. Two of the Directors, The Marquis of Bute and Mr. Frederick I. Pitman, retire from office by rotation, and are eligible for re-election.

9. One of the Company's Auditors, Mr. Charles J. G. Paterson, also goes out of office, and being eligible, offers himself for re-election.

EDMUND B. TALBOT,
Chairman.

DIRECTORS' REPORT.

DAY OF MEETING.

1. The Directors have convened the Annual Meeting for Friday, the 20th February, and they now place the Statement of Accounts and Statistical Returns for the Year ended the 31st December last, in the hands of the Proprietors.

FINANCIAL STATEMENT.

2. The Accounts having been prepared in the form prescribed by the Railway Companies (Accounts and Returns) Act, 1911, the usual comparative figures are not available.

	£	s.	d.
The Gross Receipts from all sources for the year 1913 amounted to	6,549,053	7	7
Do. do. do. 1912 do.	5,862,708	7	0
An Increase of	686,345	0	7
The Working Expenditure for the year 1913 amounted to	4,467,443	14	3
Do. do. 1912 do.	3,948,738	10	7
An Increase of	518,705	3	8

Of this increased expenditure, £227,000 is attributable to increased wages paid, and £122,000 to the increased cost of coal.

The net earnings of the past year, including £9,441 3s. 6d. brought forward from the previous year, amounted to £2,227,661 19s. 5d., which, after providing for Debenture Interest, Rentals, and other fixed charges, will admit of the payment in full of the Interest upon all Preferences down to and including the 4 per cent. Preference Stock, 1891, and 2 per cent. on the 5 per cent. Preference Stock, 1894, leaving a balance of £8,700 10s. 1d. to be carried forward to the next account.

BILLS IN PARLIAMENT.

3. The Company has no Bill this Session. Several Bills deposited by other Companies include formal clauses relating to matters in which the Company is interested as joint owners or otherwise, and in order to comply with the Standing Orders of Parliament certain of these will be submitted to the Proprietors at their Wharncliffe meeting.

NEW WORKS.

4. The works in connection with the construction of the railway deviation, and the new railway and highway bridge over the River Trent at Keadby are progressing satisfactorily.

The Darnall Tunnel has been opened out, and a portion of the widened line brought into use; the remainder of the widening is proceeding.

Substantial progress has been made with the widening of the railway between Wrawby Junction and Brocklesby.

A Contract has recently been let for the widening of the line between Doncaster and Thorne, and the work is now rapidly progressing.

The work in connection with the improved ventilation of Woodhead Tunnel is in hand, and one of the shafts will shortly be completed.

An extension of the Fish Market at Grimsby Docks, together with additional siding accommodation, has been authorised, and the work is proceeding.

The working drawings for the extension of the Fish Dock at Grimsby, authorised by the Great Central (Grimsby Fish Dock) Act, 1912, are in hand, as also the negotiations for the necessary land.

THE KING'S DOCK, IMMINGHAM.

5. The anticipations in regard to this Dock have been fully realised.

The exigencies of the business have necessitated the provision of a commodious Wool Shed, which is nearing completion, and as the vessels carrying wool also bring to this country a large quantity of meat and other perishable articles, it is essential that suitable cold storage accommodation should be provided, and your Directors have this question under consideration.

JOINT LINES UNDER CONSTRUCTION.

6. It is expected that the new lines of the Hull and Barnsley and Great Central Joint Companies between Gowdall and Braithwell will be sufficiently completed to enable them to be opened for traffic within the present year.

STEAMSHIPS.

7. The new cargo steamer "Chesterfield," recently built by Messrs. Swan, Hunter, & Wigham Richardson, on the Tyne, has been placed in the Rotterdam-Grimsby trade.

A sister ship, the S.S. "Macclesfield," will be delivered by the same firm in May next.

DIRECTORS.

8. The Directors regret to record the lamented death of their esteemed colleague, The Right Honourable Viscount Cross, G.C.B., G.C.S.I., which occurred on the 8th January last. His Lordship had served the Company for nearly 30 years with conspicuous ability.

To fill the vacancy thus created the Directors have elected Gerard Powys Dewhurst, Esq., of Manchester, to a seat on the Board.

The Directors who retire by rotation are The Right Honourable C. B. Stuart-Wortley, K.C., M.P., The Right Honourable The Earl of Kerry, M.P., Sir Berkeley G. D. Sheffield, Bart., and G. P. Dewhurst, Esq., who are eligible and offer themselves for re-election.

AUDITORS.

9. The Auditor retiring by rotation is Mr. Wm. Kevan, who is eligible and offers himself for re-election.

ALEXANDER HENDERSON,

6th February, 1914. CHAIRMAN.

The Dividends will be payable on and after Friday, the 27th February, 1914, except those in respect of the South Yorkshire Rent-Charge Stocks, which will be paid on and after the 16th February, 1914.

Report of the Directors

OF THE

GREAT NORTHERN RAILWAY COMPANY

TO THE

PROPRIETORS

AT THE

ONE HUNDRED AND THIRTY-FOURTH (BEING THE FIRST ANNUAL) ORDINARY GENERAL MEETING

TO BE HELD AT THE COMPANY'S

KING'S CROSS STATION, LONDON, N.,

ON FRIDAY, THE 13TH FEBRUARY, 1914,

at 12 o'clock noon.

---

1. THE FINANCIAL ACCOUNTS AND STATISTICAL RETURNS for the Year ended 31st December, 1913, have been prepared in accordance with the First Schedule to the Railway Companies (Accounts and Returns) Act, 1911, and are herewith presented to the Proprietors. No comparative figures are given therein, either for the Accounts or the Returns, as both have been compiled upon entirely new bases, and are therefore not strictly comparable with details previously published.

2. The Expenditure on Capital Account during the year has amounted to £407,795.

3. The principal disturbing factor in any attempt to compare the Accounts of the Receipts and Expenditure for the working of the Railway is the elimination from the receipts of the earnings by Great Northern trains running over other Companies' lines. These Receipts are now dealt with as a deduction from our Total Traffic Expenditure in Account No. 10, after allowing for payments made to other Companies for similar services over the Great Northern Line. (Details are shown in Abstract "G.")

4. The Gross Receipts of the whole undertaking amounted to £6,949,467 or an increase of £455,025 or 7·01 per cent. upon comparison with 1912 adjusted figures.

5. The Gross Expenditure of the whole undertaking amounted to £4,715,608 or an increase of £367,431 or 8·45 per cent. upon comparison with 1912 adjusted figures, being at the rate of 67·86 per cent. of the Gross Receipts, as compared with 66·95 per cent. for the Year 1912.

6. After adding the Net Miscellaneous Receipts, the Total Net Income of the whole undertaking is £2,463,016 as compared with £2,365,337 for the Year 1912, being an increase of £97,679 or 4·13 per cent.

7. The above comparisons are affected by the Coal Strike in March and April, 1912.

8. An Interim Dividend of 1½ per cent. on the Ordinary Capital of the Company was declared and paid for the Half-year ended 30th June last.

9. After providing for the payment of all fixed charges, setting aside £20,000 for Special Renewals, and placing £5,000 to the Contingency Fund and £35,000 to General Reserve, there remains £1,113,143 : 19 : 8, which enables the Proprietors to meet the interest on the Preference Stocks for the past half-year, to declare a final Dividend for the year ended on the 31st December last of 3 per cent. on the Ordinary Capital of the Company, and to carry forward a balance of £130,796, as compared with £127,718 in the corresponding period of last year.

This dividend, with the interim dividend already paid, makes a dividend on the Ordinary Capital of the Company of 4½ per cent. for the whole year, and gives—

For the half-year ended 31st December:—

£2 : 0 : 0 per cent. on the Preferred Converted Ordinary Stock
£3 : 0 : 0 „ „ "B" Stock

For the whole year:—

£3 : 0 : 0 per cent. on the Deferred Converted Ordinary Stock
£3 : 0 : 0 „ „ "A" Stock,

and makes the total dividend on these stocks for the year 1913—

£4 : 0 : 0 per cent. on the Preferred Converted Ordinary Stock
£6 : 0 : 0 „ „ "B" Stock
£3 : 0 : 0 „ „ Deferred Converted Ordinary Stock
£3 : 0 : 0 „ „ "A" Stock.

10. The following is a summary of the Revenue and Expenditure in respect of Railway working only for Year 1913, compared with 1912, the figures for which have been correspondingly adjusted for comparison :—

11. The Engineer reports as follows with regard to the progress of various works :—

"The railway between Kirkstead and Little Steeping was opened for traffic in June.

"The Down Slow Line between Little Bytham and Stoke has been completed and brought into use with the exception of the portion between Burton and Stoke, which will be opened next month.

"On the new railway between Enfield and Stevenage, the contract between Cuffley and Hertford, which was let in 1912, is progressing satisfactorily. Last year another contract for the remaining portion between Hertford and Stevenage, a distance of 8 miles 35 chains, was let, and very good progress has been made."

12. The Proprietors are asked to sanction the Expenditure of £50,000 on Sundry New Works, &c.

13. During the past year £15,920 "A" Stock and £15,920 "B" Stock have been converted into Deferred and Preferred Converted Ordinary Stocks, leaving outstanding a balance of £899,157 of each class of stock.

The Proprietors are reminded that under the provisions of the Great Northern Railway (Capital) Act, 1890, the "A" and "B" Stocks of the Company may be converted at the following rates, viz.:—

£100 "A" Stock into £100 Deferred Converted Ordinary Stock.

£100 "B" Stock into £150 Preferred Converted Ordinary Stock.

The Directors would point out the advantage of acceleration in the rate of conversion.

14. On the conclusion of the Ordinary Meeting a Special Meeting will be held for the purpose of considering and if deemed expedient of approving, the Bill which your Directors have deposited in Parliament intituled :—

"A Bill to authorise the Great Northern Railway Company to construct a new Railway Deviation Railways and widenings of Railway and other works and to acquire lands and to confer further powers upon that Company; to authorise the acquisition of lands by the Great Northern and Great Central Railway Companies jointly; to extend the time for the completion of certain works and the purchase of certain lands; and for other purposes."

It is proposed by the Bill to empower the Company to construct (i.) a short Railway in Leicestershire about 3½ miles long; (ii.) deviations of the Enfield Line at Wood Green; (iii.) a widening of that line between Bowes Park and Gordon Hill; and (iv.) widenings of the main line between the River Witham and Grantham South Signal Box, between Trent Box and Muskham Siding, between Ganston and Retford, and between Bawtry and Rossington.

The Bill authorises the Company to stop up or divert various roads and footpaths, to construct other roads and footpaths, and to purchase additional lands; and it extends the time for the completion of the Enfield to Stevenage Railway and for the compulsory purchase of lands which the Company are already authorised to acquire. The Bill also authorises the Company jointly with the Great Central Railway Company to acquire additional lands, and extends the time for the exercise by them of powers already conferred on them.

The Company are authorised to apply their funds to the purposes of the Bill, but no additional capital powers are conferred upon the Company.

15. At the same Special Meeting the following Bills will be submitted for approval:—

(1) "A Bill to incorporate and confer powers upon a Joint Committee of the Metropolitan and Great Northern Railway Companies; to provide for the leasing to such Committee of the Great Northern and City Railway undertaking of the Metropolitan Railway Company and the transfer to such Committee of the powers in respect of a railway authorised to be constructed by that Company; to empower the Joint Committee and the Great Northern Railway Company to construct new railways and works; to empower the Metropolitan Railway Company to construct a new railway and works and to acquire additional lands; and for other purposes."

It is proposed by this Bill to incorporate a Joint Committee consisting of three Directors of the Metropolitan Company and three Directors of the Great Northern Company, and to authorise the leasing to the Committee for 900 years of the Great Northern and City Railway, which was vested in the Metropolitan Company by their Act of last year. The demise is to be subject (*a*) to the obligations, debts and liabilities imposed on the Metropolitan Company by their Act of 1913, and (*b*) to the payment to the Metropolitan Company of a sum equal to the amount of the interest and dividends payable in each year on the several stocks issued or to be issued by the Metropolitan Company to the stock and share holders of the Great Northern and City Company in respect of the purchase of the undertaking.

The obligations, debts and liabilities set out in Parts 3 and 4 of the Act of 1913 are Rent Charges aggregating £18,091 14s. 0d. per annum (all of which, with the exception of £740 per annum, is payable to the Great Northern Company), and loans and liabilities amounting to £202,972.

The stocks of the Metropolitan Company on which interest and dividends are payable are:—

£504,216 3½ per cent. A. Debenture Stock.
£75,000 3½ per cent. A. Preference Stock.
£975,000 Consolidated Ordinary Stock.

The £75,000 A. Preference Stock is to rank for dividend from the 1st July, 1916; and the £975,000 Consolidated Ordinary Stock is until the 31st December, 1919, only to participate in the dividends of the Metropolitan Company in excess of 2 per cent.

The Bill transfers to the Joint Committee the powers of the Metropolitan Company to construct an extension of the Great Northern and City Railway to the Northern end of Princes Street. It empowers the Joint Committee to construct railways connecting the Great Northern and City Railway with the Metropolitan Railway and with the Waterloo and City Railway, and authorises the Great Northern Company to construct a railway between Finsbury Park and Drayton Park connecting the Great Northern Railway with the Great Northern and City Railway.

The Bill authorises the Great Northern Company to raise £450,000 with the usual borrowing powers, and contains various provisions for carrying the objects of the Bill into effect.

The Bill is the outcome of an agreement made with the Metropolitan Company when they were seeking powers to acquire the Great Northern and City Railway, and the Agreement is conditional upon the necessary powers being obtained for constructing the connecting Railways and carrying the Agreement into effect.

(2) "A Bill to confer additional powers upon the Midland Railway Company and the Cheshire Lines Committee for the construction of works and upon that Company and Committee and the Midland and Great Northern Railways Joint Committee for the acquisition of lands; and for other purposes."

This Bill, so far as it requires your sanction, proposes to authorise the Cheshire Lines Committee to widen a Bridge and divert a footpath at Hyde; to extend the time for the completion of the Railways at Toxteth Park authorised by the Cheshire Lines Act, 1903; to authorise the compulsory acquisition of lands by the Cheshire Lines Committee and the Midland and Great Northern Railways Joint Committee; and to authorise the application of the funds of the Company to the purposes of the Bill in which they are interested.

The Bill does not confer any additional capital powers on the Company.

REPORT OF THE DIRECTORS

To be submitted to the Proprietors at the First Annual General Meeting to be held in the Hamilton Hall, Great Eastern Hotel (Bishopsgate entrance), Liverpool Street Station, in the City of London, on Friday, the 13th day of February, 1914, at Twelve o'clock noon.

1. The Accounts and Statistical Returns for the year ended 31st December, 1913, presented with this Report are prepared in the new form prescribed by the Railway Companies' (Accounts and Returns) Act, 1911. They cover the whole year, and being compiled on a different basis from that hitherto adopted in the preparation of the Half-Yearly Accounts, the usual comparison of figures cannot therefore be given on this occasion.

2. The following is a summary of the Receipts and Expenditure on Revenue Account:—

	£	
Per Account No. 8—		
Gross Receipts of Railway, &c.		6,713,135
Expenditure		4,665,070
		2,048,065
Miscellaneous Receipts (net) from Rents, Interest, &c.		125,265
Total Net Income		2,173,330
Per Account No. 9—		
Add Balance from last Account		107,500
		2,280,830
Deduct Interest, Rentals, and other Fixed Charges		1,002,005
		1,278,825
Deduct Appropriation to Reserve		10,000
		1,268,825
Deduct Dividends on Guaranteed and Preference Stocks		773,607
Balance available for Dividend on Ordinary Stock		£495,218

3. The Interim Dividend of 7s. 6d. per cent. which was paid on the Ordinary Stock for the Half-year ended 30th June, 1913, absorbed £57,611, leaving £437,607, which will admit of the payment of a Dividend of £2 2s. 6d. per cent. for the Half-year ended 31st December, 1913, making £2 10s. 0d. per cent. for the year, carrying forward a balance of £111,146, after setting aside £10,000 for Cottages for Staff.

The Dividends paid on the Ordinary Stock for the year 1912, were 12s. 6d. per cent. for the Half-year ended 30th June, and £1 17s. 6d. per cent. for the Half-year ended 31st December, making £2 10s. 0d. per cent. for the year, with a balance of £107,500 carried forward after adding £20,000 to the Continental Steam Boats Insurance Fund and setting aside £10,000 for Cottages for Staff. In that year £27,000 was taken from the Contingent Fund to meet the cost of damage by flood.

4. The Capital Expenditure for the year has been £85,820, the details of which are shown in Account No. 5.

5. Although a continuous development of the general passenger traffic has been maintained, there has been a considerable diminution in the Suburban traffic, more especially in the number of passengers travelling between intermediate stations. This question is receiving the earnest attention of the Directors.

6. The Autumn Fishing Season at Yarmouth and Lowestoft was the most successful on record, and resulted in an increased rail traffic to the Company.

7. The cause of the heavy increase in expenditure is still due to the large advance in wages, the cost of the National Insurance Act and the enhanced price of coal, iron, timber and other materials.

8. Working by Electrical power was brought into operation on the East London Railway on the 31st March, 1913.

9. The Elsenham and Thaxted Light Railway was opened on 31st March, 1913.

10. The Bill promoted by the Company and approved by the Proprietors at the Special (Wharncliffe) Meeting on the 28th January, 1913, received the Royal assent on the 15th August last.

A Bill deposited by the Company in Parliament will be submitted to the Proprietors for their approval at a Special (Wharncliffe) Meeting to be held at the conclusion of the Annual General Meeting. The objects of the Bill are fully set out in the Wharncliffe Circular.

Several Bills affecting the interests of the Great Eastern Railway Company have been deposited in Parliament and are receiving the careful consideration of the Directors.

11. The Rt. Hon. Viscount Knollys, G.C.V.O., G.C.B., K.C.M.G., and Sir Arthur Tredgold Lawson, Baronet, are the Directors retiring by rotation and, being eligible, offer themselves for re-election.

12. One of the Auditors, Sir William Barclay Peat, also retires and offers himself for re-election.

Signed by order of the Board of Directors,

CLAUD J. HAMILTON,

Chairman.

Balance available for Dividend on Ordinary Stock	£2,413,231

The interim dividend of £2 : 5 : 0 per cent., which was paid on the Ordinary Stock for the half-year ended the 30th June, 1913, absorbed £816,642. This leaves a balance of £1,596,589 which will admit of the payment of a dividend of £4 : 0 : 0 per cent. for the half-year ended the 31st December, 1913, making £6 : 5 : 0 per cent. for the year, with a balance carried forward of £128,780.

The dividends paid on the Ordinary Stock for the year 1912 were £1 : 15 : 0 per cent. for the half-year ended the 30th June and £3 : 17 : 6 per cent. for the half-year ended the 31st December, making £5 : 12 : 6 per cent. for the year, with a balance of £133,430 carried forward.

2. Whilst the Company have during the past year enjoyed a considerable measure of prosperity in the way of increased gross revenue due to the exceptional expansion in the trade of the country, the working expenses have also largely increased, concessions to the employees, additional staff, increased taxation and the enhanced prices of coal and other materials having been the chief factors in this direction.

3. The development of the Company's business, both passenger and goods, more or less throughout the whole of the system, necessitates the provision of additional accommodation and facilities for dealing with the traffic in a satisfactory and economical manner. Such of these works as can at once be taken in hand are included in Account No. 6 giving particulars of further expenditure on Capital Account.

4. Good progress has been made with the new lines in course of construction, viz., the Ealing and Shepherd's Bush Railway, the section of the Wolverhampton and Bridgnorth Railway between Wolverhampton and Kingswinford and the Clydach Pontardawe and Cwmgorse Railway.

The Swansea District Lines have been opened throughout for goods and mineral traffic and the doubling of the West Cornwall Railway between Penwithers Junction, near Truro, and Chacewater is nearly complete.

A contract is about to be let for the construction of the Trenance Valley Branch in the vicinity of St. Austell, which was authorised by the Company's General Powers Act, 1910, and is required for dealing with the china clay traffic.

The new station at Snow Hill, Birmingham, has been completed and the works at Moor Street are progressing satisfactorily. A further section of the widening of the railway south of Birmingham has been completed and steps are being taken to continue the widening from Olton to Widney Manor.

The works in connection with the extension and improvement of Paddington Station are considerably advanced, certain of the additional accommodation having been brought into use with substantial advantage to the conduct of the traffic at the terminus.

As a further instalment of the scheme for the enlargement of Newport Station, the widening of the bridge over the River Usk and the erection of new goods offices have been taken in hand.

5. In conformity with the Standing Orders of Parliament and in pursuance of notice which has been given to that effect, the following Bills will be submitted for the consideration of the Proprietors at a Special General Meeting to be held after the Annual General Meeting :—

> "A Bill for conferring further powers upon the Great Western Railway Company in respect of their own undertaking and upon that Company and the London and North Western Railway Company in respect of an undertaking in which they are jointly interested and for other purposes."

Power is sought by this Bill to authorise the construction of a new line between Llangennech and Pembrey, near Llanelly, in continuation of the Swansea District Railway, thereby providing an alternative route which will afford much needed relief to the South Wales Main Line between Neath and Llanelly. The Bill also provides for the construction of several short spur and loop lines, for the deviation and widening of railways, for the construction of bridges and the acquisition of additional lands and for the abandonment of a short length in the town of Uxbridge of the Uxbridge and Denham Loop Line authorised by the Great Western Railway Act, 1899.

The additional capital proposed to be authorised by the Bill is £1,000,000 with the usual borrowing powers.

> "A Bill to empower the Fishguard and Rosslare Railways and Harbours Company to construct additional harbour works at Fishguard and to abandon certain authorised harbour works and railways in connection therewith and to authorise the Great Western Railway Company to subscribe to the capital of the said Company and for other purposes."

This Bill has been deposited by the Fishguard and Rosslare Company for the same purposes as the Bill promoted in the last Session which was rejected on Second Reading in the House of Commons on questions that were raised on the discussion of the Bill but which had no reference to the powers sought.

The provisions which require the approval of the Proprietors are those authorising the Great Western Railway Company to subscribe to or contribute towards the additional capital which the Fishguard Company seek powers to raise, viz., £300,000 by the creation and issue of new preference shares or stock and £150,000 by borrowing.

6. The Directors retiring by rotation are S. Ernest Palmer, Esq., Stanley Baldwin, Esq., M.P., T. Robins Bolitho, Esq., Ernest H. Cunard, Esq. and Charles Mortimer, Esq. They are eligible and offer themselves for re-election.

7. The report of the Audit Committee is appended. In pursuance of the Bye-Law of the 30th August, 1867, it will be the duty of the Proprietors to appoint the Audit Committee for the ensuing year. The following gentlemen, being duly qualified, have been nominated for election, viz. :—

REPORT OF THE DIRECTORS

To be submitted to the Proprietors at the ANNUAL GENERAL MEETING to be held in the Merchants' Hall, 30 George Square, Glasgow, on Tuesday, the 24th day of February, 1914, at 12 o'clock noon.

THE Accounts and Statistical Returns for the year ended 31st December, 1913, presented with this Report are prepared in the new form prescribed by the Railway Companies (Accounts and Returns) Act, 1911. They cover the whole year, and are compiled on a different basis from that hitherto adopted in the preparation of the Half-Yearly Accounts, and consequently the usual comparison of figures cannot be given on this occasion.

The following is a summary of the Receipts and Expenditure on Revenue Account:—

Per Account No. 8—	
Gross Receipts of Railway, &c.,	£2,171,985
Expenditure,	1,391,408
	£780,577

Total Net Income,	£825,568
Per Account No 9—	
Add Balance from last Account,	11,437
„ Appropriation from Reserve (*See Account No. 9 and Abstract B 1*),	20,000

	£627,036

Balance available for Dividend on Ordinary Stock,	£325,074

The Interim Dividend of **4¾ per cent.** per annum which was paid on the **Ordinary Stock** for the Half-year ended the 30th June, 1913, absorbed **£145,023 18s. 3d.**, leaving a balance of **£180,049 19s. 3d.**, which will admit of the payment of a Dividend of **5½ per cent.** per annum for the Half-year ended the 31st December, 1913 (being **2½ per cent.** per annum on the **Preferred Ordinary Stock, 3 per cent.** per annum on the **Deferred Ordinary Stock**, and **½ per cent.** per annum on the **Deferred Stock),** carrying forward a balance of **£11,021 18s. 3d.**

The Capital Expenditure during the year amounted to **£180,547 0s. 7d.**, and, as will be seen from Account No. 5, nearly the whole amount has been spent on Rolling Stock.

During the year there has been a large increase in Working Expenditure, due to advances in Wages and increased cost of Coal and other material.

The Contract for the Widening of the Line between Dalry and Kilwinning, authorised by the Company's Act of 1904, has now been let.

Your Directors are not promoting any Bills or Provisional Orders in the present Session of Parliament. Several Provisional Orders have been deposited affecting the interest of the Company, which are receiving careful consideration.

The Directors retiring by rotation are Mr. Caird, Mr. Brook, Mr. Lorimer, and Mr. Cuninghame, who are eligible, and offer themselves for re-election.

The retiring Auditor is Mr. John Mackintosh MacLeod, who offers himself for re-election.

1. The Secretary of State for India having decided to alter, with effect from the 1st April, 1913, the date of termination of the Company's railway year from the 30th June to the 31st March in order that it may coincide with the Government financial year, the accounts of the Company will in future be made up to the 30th September and 31st March instead of to the 31st December and 30th June. In order to bring this change into effect it has been necessary to make up the accounts for the quarter to 31st March, 1913, in addition to those for the half-year to 31st December, 1912, and Surplus Profits have been calculated in respect of the nine months ending on the 31st March, 1913. The change will not affect the guaranteed interest, which will be paid as heretofore on the 1st January and 1st July.

2. The Directors submit the Report and Accounts of the working of the undertaking for the half-year ending 31st December, 1912, and for the quarter ending 31st March, 1913. The result admits of a dividend for the period of nine months of 16s. per cent. on the Stock of the Company in addition to the guaranteed interest. Warrants for Interest for the half-year ending 30th June, 1913, and for Dividend for nine months ending 31st March, 1913, will be forwarded to the Stockholders on the 30th June, 1913.

HALF-YEAR ENDING 31st DECEMBER, 1912.

3. MILEAGE.—The only alterations during the half-year ending 31st December, 1912, were a decrease of 0·52 mile in the single line due to re-alignments, an increase of 0·05 mile in the double line due to an adjustment on re-measurement, also 1·90 miles of single line at Delhi Sadr which were converted into double line.

The following is a summary of the mileage worked at the close of the half-year :—

	Miles.
Quadruple line	4·29
Double line	616·74
Single line including State lines	2,279·97
TOTAL	2,901·00

in addition—

4. REVENUE ACCOUNT.—The following are the comparative results, including the working of State Lines in connection with the undertaking :—

5. GENERAL RESULTS.—It will be seen from the foregoing comparison that with an increase of Rs. 36,63,973, or 10·29 per cent. in the gross earnings, there was an increase of Rs. 35,08,083, or 17·12 per cent., in the expenditure ; the result shewing an increase of net earnings amounting to Rs. 1,55,890, or 1·03 per cent., as compared with the corresponding period of 1911. The expenditure was equal to 61·11 per cent. of the gross earnings as against 57·55 per cent. in the corresponding previous half-year.

6. NET REVENUE.—After deducting from the Net Revenue the sum of Rs. 11,44,398. 9a. 8p. due to State Lines, there remains a balance of Rs. 1,41,27,813. 15a. 3p., against which has to be set the amount of Rs. 1,23,99,626. 3a. 5p. for fixed charges under the Contract and interest charges as shown in Statement No. 7, thus leaving a surplus of Rs. 17,28,187. 11a. 10p. to be carried forward to the General Net Revenue Account for the period of nine months ending 31st March, 1913, for the determination of surplus profits in accordance with the provisions of the Contract.

7. Comparison of Earnings.—The details of the earnings, compared with those of the corresponding half-year of 1911, are as follows:—

8. The above statement exhibits the following results under the two main heads, namely:—

In Coaching, a decrease of Rs. 6,49,173, equal to 5·13 per cent.

„ Goods, an increase of Rs. 42,31,916, „ 18·73 „

9. Coaching Traffic.—In the total receipts from coaching traffic there was a decrease of Rs. 6,49,173 due principally to the comparison having to be made with a half-year in which the Delhi Durbar gave specially high receipts. In the receipts from ordinary passenger traffic in spite of a falling off in the number of 1st and 2nd Class passengers due to the above-mentioned cause,

there was an increase of Rs. 19,666, the number carried being greater by 988,747. This increase is accounted for chiefly by the general development of the 3rd class passenger traffic by ordinary trains owing to prosperous trade. The decrease in earnings in 3rd class by mail trains is partly due to the discontinuance of mail bookings on the Indian Midland Section, owing to the shorter route via Nagda and Muttra, worked by the B.B. and C.I. Railway Company, and partly to the Delhi Durbar traffic in the corresponding half-year.

10. Goods Traffic.—There is an increase in the goods earnings amounting to Rs. 42,31,916. The usual statement of principal commodities carried is appended at pages 16 and 17, and the following is a brief abstract of the variations in the receipts from the chief staples as compared with the corresponding half-year of 1911, together with remarks thereon :—

Commodities.	Increase.	Decrease.	Remarks.
	Rs.	Rs.	
Coal and Coke	1,58,896	...	High sea freights gave the Railway the preference.
Cotton, raw	...	3,39,614	Crop late owing to late monsoon.
Piece-goods, European ...	91,472	...	Due to prosperous condition of the people.
Gram and pulse	12,06,118	...	Large quantities carried to the Deccan and Madras Presidency where crop was deficient.
Rice	...	76,595	Due to poor crop and to the fact that in 1911 large quantities were carried to districts affected by scarcity.
Wheat	12,71,442	...	Unloading of stocks by agriculturists and larger demand from Europe.
Manganese ore	12,20,115	...	More wagons were available and sea freights were lower.
Earthnuts	...	1,36,669	Small demand for export.
Linseed	3,65,867	...	Better crops and larger demand from Europe.
Rape and Mustard	81,704	...	Comparison is made with a low traffic in 1911 due to unfavourable crops.
Til or jinjili	...	1,97,984	Dealers held their stocks owing to crop reports from some districts being unfavourable
Cotton seed	...	7,89,638	Due to late cotton crop ; also to the stocks of old crops having been exhausted owing to scarcity of fodder in previous half-year.
Other Oil-seeds including Castor and Poppy	...	1,92,423	Principally due to inferior crops of mowra and castor seed.
Salt	...	75,006	Due to lateness of monsoon which prevented manufacture being started ; also to there being large stocks on hand owing to quantity carried in previous half-year being in excess of requirements.
Sugar, refined	1,39,187	...	A larger amount of imported sugar was carried from Bombay for distribution up country owing to lower prices.

11 WORKING EXPENSES.—The following comparative statement of the revenue expenditure of each department shows an increase in the total outlay amounting to Rs. 35,08,083, equal to 17·12 per cent., with an increase of 907,234, or 9·22 per cent., in the train mileage. The ratio of expenditure to gross earnings was 61·11 per cent. compared with 57·55 per cent. in the corresponding period of 1911 :—

Total train mileage ...	10,746,413		*9,839,179*		907,234	+ 9·22

12. Under maintenance of way, works and stations the increase was due principally to heavier expenditure incurred in relaying a portion of the line with 100-lb. rails and repairing a portion of the line at Palasdhari damaged by floods; also to the original cost of certain old works dismantled at Wadi Bandar having been written back to debit of Revenue. The higher locomotive expenditure was due chiefly to increased running expenses entailed by the greater train mileage as shewn on page 30. The increase in carriage and wagon expenses was attributable chiefly to the larger number of goods vehicles thoroughly repaired and renewed during the half-year. Under traffic expenses there was an increase mainly due to the engagement of additional staff on account of the increased traffic. The increase under general charges was chiefly attributable to the salaries of some of the principal officers having been raised and to the appointment of additional station staff. Under special and miscellaneous expenditure the increase was chiefly in the payments to foreign lines on account of hire and demurrage of stock and to retiring gratuities.

THREE MONTHS ENDING 31st MARCH, 1913.

13. MILEAGE.—The principal alteration during the quarter ending 31st March, 1913, was the doubling of 4·49 miles at Agra at the junction with the Agra Delhi Chord Railway. The following is a summary of the mileage worked at the close of the quarter :—

	Miles.
Quadruple line	4·29
Double line	620·47
Single line including State lines	2,275·32
TOTAL ...	2,900·08

in addition—

14. REVENUE ACCOUNT.—The following are the comparative results, including the working of State Lines in connection with the undertaking :—

15. GENERAL RESULTS.—It will be seen from the foregoing comparison that with an increase of Rs. 3,10,360, or 1·25 per cent. in the gross earnings, there was an increase of Rs. 24,16,795, or 21·47 per cent., in the expenditure; the result shewing a decrease of net earnings amounting to Rs. 21,06,435, or 15·53 per cent., as compared with the corresponding period of 1912. The expenditure was equal to 54·41 per cent. of the gross earnings as against 45·35 per cent. in the corresponding previous three months.

16. NET REVENUE.—After deducting from the Net Revenue the sum of Rs. 7,16,612. 11a. 4p. due to State Lines, there remains a balance of Rs. 1,07,43,557. 9a. 6p., against which has to be set the amount of Rs. 63,02,005. 2a. 10p. for fixed charges under the Contract as shown in Statement No. 7, thus leaving a surplus of Rs. 44,41,552. 6a. 8p. to be carried forward to the General Net Revenue Account for the period of nine months ending 31st March, 1913, for the determination of surplus profits in accordance with the provisions of the Contract.

18. The above statement exhibits the following results under the two main heads, namely :—

In Coaching, an increase of Rs. 4,70,481, equal to 7·60 per cent.
„ Goods, a decrease of Rs. 2,07,857, „ 1·12 „

19. Coaching Traffic—In the total receipts from coaching traffic there was an increase of Rs. 4,70,481 while in the receipts from ordinary passenger traffic, excluding season tickets and troops, there was an increase of Rs. 4,36,812, the number carried being greater by 637,308, chiefly in third class passengers travelling by ordinary trains. The increase is due to general development of traffic and to larger attendances at fairs and marriages.

20. Goods Traffic.—There is a decrease in the goods earnings amounting to Rs. 2,07,857. The usual statement of principal commodities carried is appended at pages 32 and 33, and the following is a brief abstract of the variations in the receipts from the chief staples as compared with the corresponding quarter of 1912, together with remarks thereon :—

Cotton seed	.....	4,13,542	Follows the decrease in cotton raw.
Sugar, refined	1,05,125	.....	Greater demand for Mauritius sugar.

21. Working Expenses.—The following comparative statement of the revenue expenditure of each department shows an increase in the total outlay amounting to Rs. 24,16,795 equal to 21·47 per cent., with an increase of 268,953 or 5·15 per cent., in the train mileage. The ratio of expenditure to gross earnings was 54·41 per cent., compared with 45·35 per cent. in the corresponding three months of 1912 :—

22. Under maintenance of way, works and stations the increase was due to heavier repairs to banks, realignment of curves between Kalyan and Kasara, and to greater progress in the renewal of important bridges. The increased locomotive expenditure was due to larger consumption of coal (partly owing to an increase of 5·35 per cent. in the engine mileage) at higher issue rates, and to outlay on renewal of passenger engines during the quarter. The increase in carriage and wagon expenses was due to heavier repairs and renewals of goods stock and to a larger number of wheels and axles and other material issued. In traffic expenses there was an increase in station and train staff owing to the heavier traffic and in cost of lighting of some of the principal stations. The net decrease in special and miscellaneous expenses was due to comparison being made with a period in which the staff received a bonus for work done at the Durbar; there are, however, increases in the amounts paid for hire of vehicles and gratuities on retirement.

PERIOD OF NINE MONTHS ENDING 31st MARCH, 1913.

23. RESULTS.—The general results for the nine months ending 31st March, 1913, as compared with the corresponding period of 1911-12 (excluding State Lines) are as follows :—

Out of this sum the Directors propose that a dividend of 16s. per cent., amounting to £20,600. 0s. 0d., be declared and paid to the stockholders in addition to the guaranteed interest of the half-year, leaving a balance of £158. 3s. 0d. exclusive of interest on deposit which will become due on 30th June, 1913. A Resolution as to the dividend will be submitted to the meeting.

26. Capital Expenditure.—The expenditure on Capital Account during the nine months ending 31st March, 1913, amounted to Rs. 1,78,88,477, the main items of which may be classified as follows :—

	Rs.

Renewals of engines...	1,79,000
Miscellaneous works	27,09,804
	Rs. 1,78,88,477

27. Itarsi-Nagpur Railway.—Work on this chord line has progressed as fast as the limited allotments of money by the Government of India have permitted, and the northern section of 66 miles, mentioned in the Directors' last report, was opened for traffic on the 1st May, 1913. As the budget allotment for this year—1913-14—is too small even to allow of a steady progress on this line the Board have made a special appeal to the Secretary of State for India for extra funds so that construction work may be pushed rapidly to completion.

28. Great Development of Traffic.—The increase of traffic alluded to in the last Report continues, and great efforts have been made during the last year to add the additional facilities required for moving the traffic offering. The figures given in paragraph 26 shew that in the nine months under review Rs. 57,99,377 have been spent in quadrupling the line at the Bombay end, in doubling the remaining sections of the Nagpur branch, and in adding to the capacity of station yards; and the same activity must continue until the line is in a position to carry what is offered to it.

29. Additional Rolling Stock.—To meet the requirements of the increasing traffic contracts have been let during the nine months under review for the following :—

59 Goods engines and tenders,
70 Bogie passenger carriages,
754 Covered goods wagons,
97 Covered goods and cattle wagons,
75 Open coal and goods wagons,
20 Oil tank wagons,
50 Brake vans,
5 Bogie timber wagons, 40 tons capacity ;

and the following have been shipped to India during the same period :—

19 Passenger engines,
6 Goods engines,
11 Ghaut engines,
579 Covered goods wagons,
305 Covered goods and cattle wagons,
130 Open coal and goods wagons.

For service on the branch lines under construction by this Company :—

2 Tank engines,
5 Bogie Carriages,
15 Goods wagons,

have been contracted for ; and

70 Covered goods wagons,
16 Open wagons,

have been shipped to India during the last 9 months.

The actual outlay on Stock put on the line during the last nine months was Rs. 28,39,476. Added to this there was also very large expenditure on necessary additions to the workshops.

30. Strengthening of Bridges and Roadway.—This work has been pushed as fast as possible, but much still remains to be done. Unfortunately most of this expenditure falls against revenue ; but as the old roadway is too light for the heavier engines and loads and for the increased speeds now demanded this expenditure has to be faced.

31. Dates of Holding Meetings.—The next meeting would, under past procedure, be held in December next, but as the accounts for the half-year

ending 30th September, 1913, will not be ready for presentation before the end of December it would involve holding the meeting in the Christmas week. The Directors propose, therefore, to meet the Stockholders on an early date in January, 1914.

32. RE-ELECTION OF DIRECTORS.—Colonel F. Firebrace and Mr. H. C. E. Wenden, C.I.E., the Directors in rotation to retire, offer themselves for re-election.

33. RE-ELECTION OF AUDITOR.—Mr. T. Bashford, the Auditor in rotation to retire, offers himself for re-election.

By Order of the Board,

R. H. WALPOLE,

Secretary.

16*th June*, 1913.

1. The Directors submit the following Report and Accounts of the working of the undertaking for the half-year ending 30th September 1913, being the first half-year of the Company's financial year.

2. MILEAGE.—During the half-year there was a decrease in double line of 0·63 mile due to 0·29 mile of the Bombay Harbour Branch having been taken up for the Overhead Extension Railway and to a reduction of 0·34 mile owing to alterations in the Locomotive Yard at Bhusaval. There was an increase of 66·25 miles in single line due to the Itarsi-Betul Section of the Itarsi-Nagpur Railway having been opened for traffic from 1st May, 1913. The following is a summary of the mileage worked at the close of the half-year :—

	Miles.
Quadruple line	4·29
Double line	619·84
Single line including State lines	2,341·57
TOTAL	2,965·70

in addition—

Foreign lines over which running powers are exercised ...	61·70

3. REVENUE ACCOUNT.—The following are the comparative results, including State Lines :—

	HALF-YEAR ENDING		INCREASE OR DECREASE 1913.	
	30th September, 1913.	30th September, 1912.	Amount.	Per cent.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
Gross receipts ...	4,07,63,426 0 9	3,90,84,379 14 3	+ 16,79,046 2 6	+ 4·30

4. GENERAL RESULTS.—It will be seen from the foregoing comparison that with an increase of Rs. 16,79,046, or 4·30 per cent., in the gross earnings, there was an increase of Rs. 31,80,221, or 14·32 per cent., in the expenditure ; the result shewing a decrease of net earnings amounting to Rs. 15,01,175, or 8·90 per cent., as compared with the corresponding period of 1912.

5. Net Revenue.—After deducting from the Net Revenue the sum of Rs. 11,18,861 13a. 7p. due to State Lines, there remains a balance of Rs. 1,42,48,505 4a. 2p. against which has to be set the amount of Rs. 1,28,53,340 5a. 2p. for fixed charges under the Contract as shown in Statement No. 7, thus leaving a surplus of Rs. 13,95,164 15a. 0p. to be carried forward to next half-year's account, when the complete statement for the year will be made up for the determination of surplus profits in accordance with the provisions of the Contract.

6. Comparison of Earnings.—The details of the earnings, compared with those of the corresponding half-year of 1912, are as follows:—

7. The above statement exhibits the following results under the two main heads, namely:—

In Coaching, an increase of Rs. 15,53,282, equal to 13·44 per cent.
„ Goods, „ „ „ Rs. 42,952, „ 0·16 „

8. Coaching Traffic.—In the receipts from ordinary passenger traffic, excluding season tickets and troops, there was an increase of Rs. 12,71,889, the number carried being greater by 1,091,315. The increase is general in all classes but particularly in third class passengers travelling by ordinary trains, due to larger attendance at fairs and marriages; the Pandharpur Fair also contributed to the increase; owing to the prevalence of cholera no fair was held in 1912.

9. Goods Traffic.—The usual statement of principal commodities carried is appended at pages 9 and 10. The following is a brief abstract of the variations in the receipts from the chief staples as compared with the corresponding half-year of 1912, together with remarks thereon :—

Commodities.	Increase.	Decrease.	Remarks.
	Rs.	Rs.	
Coal and coke	1,98,548	...	Larger quantity was carried for consumption in mills and for the B.B. and C.I Railway.
Cotton, raw	1,47,807	...	Better crop and greater demand for export.
Hay, straw, and grass ...	...	3,02,767	Larger movement in the corresponding period of 1912 owing to scarcity prevailing in certain districts.
Gram and pulse	...	5,91,466	Do.
Jawar and bajra	...	4,13,534	Do.
Rice	...	2,37,964	Do.
Wheat	8,31,696	...	Good crops and larger demand for export.
Other grains, including wheat flour.	...	3,78,958	Heavier bookings of maize to Bombay in the corresponding period for distribution to places affected by scarcity, and of barley for export.
Manganese ore	5,65,432	...	Sea freights easier and better railway facilities available.
Linseed	3,32,420	...	Better crops and larger demand for export.
Rape and mustard	...	1,71,292	Decrease due to poorer crops owing to want of rain in December and January last and less demand for export.
Sugar, refined	1,30,431	...	Greater demand for Java sugar.

10. Working Expenses.—The following comparative statement of the revenue expenditure of each department shows an increase in the total outlay amounting to Rs. 31,80,221, equal to 14·32 per cent., with an increase of 1,59,766, or 1·51 per

cent., in the train mileage. The ratio of expenditure to gross earnings was 62·30 per cent. compared with 56·84 per cent. in the previous corresponding period :—

Total train mileage ...	10,726,712		*10,566,946*		+ 159,766	1·51

11. Under maintenance of way, works, and stations the increase was principally due to heavier outlay incurred in relaying a portion of the line with 100-lbs. rails and to heavier repairs having been executed to station buildings, etc. Locomotive expenses show an increase mainly due to larger consumption of coal owing to the greater train mileage. The increase in carriage and wagon expenses was chiefly attributable to heavier repairs and renewals of goods stock and to increases of pay granted to the workshop staff. Under traffic expenses the increase was mainly due to additional staff having been employed on account of the heavier traffic. The increase in special and miscellaneous expenses was chiefly owing to heavier payments for hire and demurrage of foreign stock.

12. Capital Expenditure.—Statements Nos. 4A and 4B, on page 12, show the expenditure on Capital Account to 30th September 1913. The Expenditure during the half-year under review amounted to Rs. 1,00,61,740, the main items of which may be classified as follows :—

	Rs.
Itarsi-Nagpur Railway	20,00,485
Bombay Harbour Branch Extension	5,39,902
Doubling the line from Shegaon to Nagpur	14,23,090
Quadrupling the line from Currey Road to Kalyan	12,80,960
Remodelling the yard, etc., at Kalyan	3,87,683
Improvement of the water supply at Kalyan	2,19,585
Additional traffic facilities at stations	9,54,300
„ staff quarters	2,84,600
New carriage and wagon shops at Matunga	2,31,953
Power house and generating plant for Jhansi shops	1,51,489
Additional engine stock	10,12,225
Additional coaching and goods stock	5,34,756
Renewal of coaching and goods stock	3,63,333
Miscellaneous	6,77,379
	Rs. 1,00,61,740

From the above it will be noticed that large additions have been made to the locomotive and rolling stock; and that the work of quadrupling the line from Bombay to Kalyan, and doubling the section between Shegaon and Nagpur is being pushed forward with great energy. Much additional work has also been effected towards providing better traffic facilities at many intermediate stations where congestion is mostly felt. The electrification of the railway workshops at Jhansi is now practically complete, and the installation in use.

13. Itarsi-Nagpur Railway.—In their last report the Directors mentioned that they had appealed to the Secretary of State for extra funds for this link in their system. The Directors understand that their appeal has had effect and they hope now that the progress on these works will be more satisfactory.

14. Bombay Harbour Branch Extension.—The extension of this branch into the Victoria Terminus is making good progress, and although the acquisition of land in the heart of Bombay is usually a tedious and costly proceeding, no difficulties have been met with in this matter. This short extension, two miles in length, involves a viaduct over the Company's goods depôt at Wadi Bandar.

15. Feeder Lines.—Good progress has been made with the branch lines on the 2 ft. 6 in. gauge under construction by the agency of this Company. The branch from Murtajapur to Ellichpur, 47·65 miles, will probably be opened for traffic in January 1914; the section of 19 miles from Murtajapur to Karinja of the Murtajapur-Yeotmal branch is nearly ready for opening, and that from Dhond to Baramati, 27·33 miles, should be ready for traffic in February 1914. These branches, on opening, will be worked by the Company under agreement with the local companies providing the capital, namely, the Central Provinces Railways Company and the Dhond-Baramati Railway Company.

16. Bombay Suburban Traffic.—At the instance of the Bombay Government, the railway systems terminating in Bombay have been enquiring into the merits of electrifying the suburban sections of the railways, and the eminent firm, Messrs. Merz and McLellan, were asked to report on the question. Their report, which has just been received, will be carefully considered.

17. Deputation of Mr. J. E. Dallas, Deputy Chairman.—The Directors have asked Mr. Dallas to visit India to familiarize himself with the recent developments in the construction and working of the railway. He will also enquire into one or two matters which require careful examination on the spot.

18. Strike on the Railway.—On the 1st June 1913, when unfortunately the traffic on the line was at its height, a large number of the staff, members of the Amalgamated Society of Railway Servants, went out on strike without warning. The leaders openly stated that they had no grievances against the management of the G.I.P. Railway, but had merely struck out of sympathy with certain employés on a neighbouring Railway—the Madras and Southern Mahratta Railway. With the exception of 11 men, who were dismissed, all returned to duty on the 9th June 1913. Most of the passenger train service was run as usual during the strike, but the goods traffic suffered severely.

19. Accidents.—During the half year five fatal train accidents occurred but only in one was there a serious loss of life. Owing to defective signals two trains were allowed entry into the same section of the line at the same time, with the result that the second train running at speed crashed into the first train, which had been stopped near the entrance into the Borgaon station on the Nagpur branch of the line. Thirty-three persons were killed and seventy-nine injured—of whom seventeen were very seriously hurt—including a European signal and interlocking inspector and his wife. The official enquiry elicited that the block instruments had not been maintained efficiently and that the accident was further due to some of the ordinary rules for traffic working having been disregarded. Three members of the Company's staff were in consequence prosecuted and convicted.

20. Development of Traffic.—The Directors are pleased to note that the traffic over the G.I.P. Railway still continues to show a steady increase, and had the monsoon rains continued as they had begun, bumper crops should have resulted. There has, however, been a failure of the rains in the last few months, and scarcity in some parts of India is likely to be felt. However, it is not anticipated that the cotton and seed crops in most parts of the country traversed by the G.I.P. Railway will be seriously affected, unless the usual winter rain is also deficient in quantity.

By order of the Board,

R. H. WALPOLE,

Secretary.

The Accounts and Balance Sheet for the year ending the 31st December, 1913, duly audited, are herewith presented.

CAPITAL ACCOUNT

The amount of paid-up Share and Loan Capital and Debenture Stock is as follows :—

Ordinary Shares	(Statement No. 2)	£140,000	0 0
Preference Shares	(Statement No. 2)	50,000	0 0
Debenture Stock	(Statement No. 3)	159,310	0 0
Premiums on issue of Shares and Debenture Stock	(Statement No 4)	6,045	16 6
		£355,355	16 6

The Expenditure on Capital Account to the 31st December, 1913, amounted to £361,498 6s. 8d., or £6,142 10s. 2d. more than the receipts, as set forth in Statement No. 4.

REVENUE ACCOUNT.

The Receipts and Disbursements of the Company during the past year have been as follows :—

Receipts.

Passengers	£36,194	4	5
Parcels, Horses, Carriages, &c.	4,257	9	11
Mails	495	0	0
Merchandise, Minerals, &c.	4,891	16	7
Rents, &c.	527	10	0
Transfer Fees	13	17	6
	£46,379	18	5

Disbursements.

Working Expenses	£26,093	10	5
Rates, Taxes, and other Charges	669	17	3
	£26,763	7	8

In 1912 the gross receipts on Revenue Account amounted to £41,702 9s 5d., and the total expenses to £23,396 8s 6d.

The average receipts per mile of line per week amounted to £19 4s. 8d., and the expenses to £11 1s. 11d

During the year 1,069,911 passengers travelled over the lines of Railway, and the train mileage has been 267,954 miles.

The quantity of Merchandise and Minerals conveyed amounted to 29,585 tons.

There have been re-laid with a heavier section of steel rails and improved fastenings, 1 mile and 1,615⅔ yards of main line during the past year.

Owing to the increased traffic at Port Erin Station during the last few years, it became absolutely necessary that more siding accommodation should be provided at that station, and for that purpose additional land had to be purchased. The work was commenced in November last and is now nearing completion. Improved sanitary conveniences at Douglas station have also been provided during the past year. The cost, so far as the works have been completed up to the end of the year, including the cost of the land, has been charged in the Revenue Account for the year.

In September last Interim Dividends on the Preference and **Ordinary** Share Capital, at the rate of 5 per cent. per annum respectively, for the half-year ended the 30th June were paid.

The balance standing to the credit of Net Revenue Account, after charging that Account with all preferential claims, including the Interim Dividends paid in September, as per Statement No 8, is £13,676 0s. 2d., out of which your Directors recommend the payment of Dividends for the half-year ended the 31st December last at the rate of 5 per cent. per annum on the Preference Share Capital, and at the rate of 5 per cent. per annum on the paid-up Ordinary Share Capital of the Company, making the dividend on the latter, one of 5 per cent. for the whole year. In addition, they also recommend the payment of a Bonus of 1 per cent. on the paid-up Ordinary Share Capital of the Company, leaving a balance of £7,526 0s. 2d. Of this amount your Directors have transferred £3,000 0s. 0d. to the Reserve and Renewal Fund, to be placed to a Special Account to be called "Bridges Renewal Account," and they recommend that the balance of £4,526 0s. 2d., should be carried forward to the next account.

The Permanent Way, Stations, and Rolling Stock have been efficiently maintained during the past year, and are now in good condition.

The two Directors retiring by rotation at the ensuing General Meeting are Mr. George Henry Wood and Mr. James Murray Cruickshank, both of whom are eligible, and offer themselves for re-election.

(By Order),

THOS. STOWELL, Secretary.

Report of the Directors, Financial Accounts, and Statistical Returns

for the

Year ended 31st December 1913.

The Isle of Wight Central Railway Company.

REPORT OF THE DIRECTORS,

To be submitted to the Annual General Meeting of the Proprietors of the Company, to be held in Room 114 at the Great Eastern Hotel (Liverpool Street Entrance), London, E.C., on Wednesday, the 25th day of February, 1914, at 12.15 p.m. o'clock precisely.

1.—The Accounts and Statistical Returns for the Year ended 31st December, 1913, presented with this Report, are prepared in the new form prescribed by the Railway Companies (Accounts and Returns) Act, 1911. They cover the whole Year, and being compiled on a different basis from that hitherto adopted in the preparation of the Half-yearly Accounts, the usual comparison of figures cannot be given on this occasion.

2.—The following is a Summary of the Receipts and Expenditure on Revenue Account:—

	£
Per Account No. 8—	
Gross Receipts of Railway, &c.	44,529
Expenditure	26,901
	17,628
Miscellaneous Receipts (Net) from Rents, Interest, &c.	1,178
Total Net Income	18,806
Per Account No. 9—	
Add Balance from Last Account	635
	19,441
Deduct Interest, Rentals, and other Fixed Charges	15,434
Balance Available for Dividend	£4,007

Compared with year 1912, the Traffic and Wharf Receipts, Rents, &c., show an increase of £475. The expenses show a decrease of £1,523, which would have been greater but for the increased cost of coal, higher rates of pay to staff, and also contributions under National Insurance Act 1911. The rate of working expenses is 59.81 per cent. (see Account No. 10) as against 64.70 for last year.

3.—The Interim Dividend of £1 5s. 0d. per cent., which was paid on the First Preference Stock for the Half-year ended 30th June, 1913, absorbed £938, leaving £3,069, out of which the Directors recommend the payment of a Final Dividend on the First Preference Stock of £2 15s. 0d. per cent., £2,063, for the Half-year ended 31st December, 1913, making £4 0s. 0d. per cent. for the year, carrying forward a balance of £1,006.

4.—The Dividend on the First Preference Stock for the Year 1912 was £2 10s. 0d. per cent., paid for the Half-year ended 31st December, with a balance of £635 carried forward.

5.—If approved, the Dividend Warrants will be posted on the 6th March, 1914.

6.—The Isle of Wight Central Railway (Godshill Transfer) Act, 1913, received Royal Assent on the 4th July, 1913, and as from 1st July, 1913, the Newport, Godshill, and St. Lawrence Railway was amalgamated with and formed part of this Undertaking. The railway had previously been worked and managed by this Company.

Of the £40,000 additional Debenture Stock C, authorised by the 1913 Act, £30,348 has been issued during the year (see Account No. 4). Of the amount issued £29,998 was part of the consideration for the Godshill Undertaking; the remaining £6,002 Debenture Stock C will be issued this year.

7.—The working agreement having expired, this Company ceased to work the Freshwater, Yarmouth, and Newport Railway after 30th June, 1913. Application was made by this Company to the Railway and Canal Commissioners' Court for an Order requiring the Freshwater, Yarmouth, and Newport Railway Company to afford facilities, &c., at Newport, for through traffic, and it is still before the Court.

8.—To the regret of the Board Mr. Sidney Herbert, owing to pressure of other engagements, has retired, and Lieutenant-Colonel John Fane Charles Hamilton, J.P., of Ryde, I.W., was appointed by the Board as a Director of the Company representing the Preference Stockholders.

9.—The Directors who retire by rotation are Mr. E. J. Martin, representing the Ordinary Stockholders, and Mr. Harry Willmott, representing the Preference Stockholders, and these gentlemen, being eligible, offer themselves for re-election by the Ordinary and Preference Stockholders respectively.

10.—The retiring Auditor, Sir W. B. Peat, also offers himself for re-election by the Proprietors.

11.—A form of proxy is enclosed for the signature of Proprietors, and it is requested that it may be returned, duly signed and dated, to the Secretary, at Newport, I.W., so that he may receive it not later than 12 o'clock noon on Monday, the 23rd day of February, 1914.

H. WILLMOTT,
Chairman.

Newport, I.W.,
12th February, 1914.

REPORT OF THE DIRECTORS

To be submitted to the Proprietors at the Annual General Meeting, to be held at Euston Station, London, N.W., on Friday, the 27th day of February, 1914, at 12 o'clock noon.

The Financial Accounts and Statistical Returns for the year ended the 31st December, 1913, are presented with this Report. The Accounts are prepared in the new form prescribed by the Railway Companies (Accounts and Returns) Act, 1911. They cover the whole year, and, as they are compiled on a different basis from that hitherto adopted in the preparation of the Half-yearly Accounts, corresponding figures are not on this occasion available.

The following is a summary of the Receipts and Expenditure on Revenue Account:—

Per Account No. 8.		
Receipts		£17,219,060
Expenditure		11,322,164
		5,896,896
Miscellaneous Receipts (Net)		437,699
		6,334,595
Per Account No. 9.		
Add—Balance from last Account		101,393
		6,435,988
Deduct—Interest, Rentals, and other Fixed Charges	£1,512,792	
Appropriation to General Reserve	100,000	
Dividends on Guaranteed and Preference Stocks	1,718,962	
		3,331,754
Balance available for dividend on Consolidated Stock		£3,104,234

The interim dividend of £3 per cent. paid on the Consolidated Stock in August last absorbed £1,286,703, and, after allocating £100,000 to General Reserve, as above, a balance remains of £1,817,531, which will admit of a final dividend to 31st December, 1913, of £4 per cent., making £7 per cent. for the whole year, and carrying forward a balance of £101,927. The dividend paid for the year 1912, after placing £100,000 to General Reserve (*i.e.*, £60,000 was taken from General Reserve in the first half, and £160,000 placed to it in the second half), was £6 10s. 0d. per cent., and a balance of £101,393 was carried forward.

The large increases in Traffic in the first half of the year compared with 1912, due to some extent to the Cotton and Coal Strikes in the early part of that year, were not maintained in the second half, partly owing to the Transport Workers' Strike in Dublin.

With great regret the Directors have to record the death of His Grace The Duke of Sutherland, K.G., which occurred on the 27th June last. He had served upon the Board for 37 years, and was always held in the highest esteem by his colleagues. As many of the Shareholders are aware, members of the late Duke's family were amongst the promoters of the Liverpool and Manchester Railway in 1826, and continued to be associated with the North Western undertaking from the time of the Consolidation in 1846.

The Directors having received with great regret the intimation of Sir Frank Ree's desire to retire during the course of this year from his position as General Manager, have made arrangements for Mr. C. G. S. Calthrop, who was previously in the Company's service and is at present General Manager of the Buenos Ayres and Pacific Railway Company, to succeed Sir Frank Ree in that position.

A question of considerable interest to all holders of Railway securities has arisen through the appointment by the Government of a Royal Commission on Railways. The proceedings of the Commission are being carefully followed, and the Railway Companies' Association is arranging for an adequate presentation of the Railway case.

Another instance of Their Majesties' solicitude for the welfare of their subjects was displayed by their inspection of the Company's Engineering Works at Crewe on the 21st April, 1913. The visit was marked by two noteworthy circumstances—the Mayor who received the Royal Visitors is a signalman in the Company's employ, and the King conferred the honour of Knighthood upon the Superintendent of the Line, Sir Robert Turnbull, M.V.O.

The Company are applying to the Light Railway Commissioners for an Order authorising the construction of a Light Railway in the County of Flint from Dyserth to Newmarket.

By the Great Western Railway Bill, it is proposed to authorise the Great Western Railway Company and the London and North Western Railway Company to execute works and acquire certain lands in the Counties of Salop and Chester.

By the Midland Railway Bill it is proposed to authorise the London and North Western and Midland Joint Committee to abandon a small portion of the Ashby and Nuneaton Joint Railway at Hinckley.

The draft Order and the Bills for the above objects will be submitted to the Proprietors for their consideration at a Special General Meeting to be held for the purpose at Euston Station on the 3rd March.

The various Bills and Provisional Orders affecting the Company's interests which have been deposited by other parties will receive the careful consideration they demand.

The Directors retiring by rotation are :—

Charles James Cropper, Esq.,
The Hon. Rupert Edward Cecil Guinness, C.B., C.M.G., M.P.,
The Hon. Arthur Henry Holland-Hibbert, and
Joseph Bruce Ismay, Esq.,

who will be proposed for re-election.

It will be necessary at the forthcoming Meeting of the Proprietors to elect the Audit Committee for the ensuing year.

A Report of the Proceedings at the Ordinary General Meeting held on the 21st February, 1913, has been circulated amongst the Proprietors, and a report of the Proceedings at the Special General Meeting of the 25th February, 1913, is appended hereto, together with the Report of the Engineer on the progress of New Works, &c.

The Dividend Warrants will be posted on the 4th March to the last known address of each Proprietor, unless instructions have been received to the contrary.

ENGINEER'S REPORT ON PROGRESS OF WORKS, DATED THE 13TH OF FEBRUARY, 1914.

Euston.—The alterations at Euston Station, which include the provision of improved Booking Office accommodation, the re-arrangement of the Dining, Refreshment, and Tea Rooms, &c., are in progress, but work has been suspended for some weeks owing to labour trouble in the building trade. The new Tea Room and First Class Refreshment Room have been completed and brought into use. The additional offices over the East and West Wings are nearly finished.

Euston to Watford New Railway.—The works between **Willesden and Watford** have been completed and are in use, and good progress has been made with the remaining portion between **Chalk Farm** and the west end of **Kensal Green Tunnel at Willesden.**

The cast-iron tunnels at **Kensal Green and Chalk Farm** have been commenced, and the bridges under the public streets are well in hand.

The construction of the new Electric Power Station at **Stonebridge Park** is in progress, and the greater part of the steel framing has been erected. Contracts will shortly be let for the Carriage Repair Shed at that place, also for six Electric Sub-Stations, and for the New Carriage Sheds at **Willesden and Watford** to accommodate the electric rolling stock.

The laying of the conductor rails for the electrification of the New Line has been commenced.

The track work for the electrification of the **West London Line** between **Willesden** (High Level) and **Earl's Court Junction** is nearly complete.

Additional platforms have been provided at **Broad Street** and **Bricket Wood Stations.** A Down Loop at **Welton** and Up Loops at **Weedon** and **Stafford** have been completed and brought into use, and Up and Down Loops are now being constructed at **Foleshill** on the Coventry and Nuneaton Line.

The Sleeper Creosoting Depôt at **Mitre Bridge, Willesden**, is inconveniently placed and restricted in area, and it is necessary to transfer the Works to a more central position. Suitable land has therefore been purchased at **Northampton**, and the construction of the New Depôt is in hand.

The Permanent Way of the New Railway at **Coventry** is being laid, and it is expected that the line will be opened for traffic during the coming summer.

The alterations at **Walsall Passenger Station** are complete, and the large Shed for Empty Packages at **Aston Goods Station**, Birmingham, is nearly finished.

The preliminary works in connection with the reconstruction of **Nuneaton Station** having been carried out, Contracts were let in December for completing the work, and operations have been commenced. It is expected that a further Contract for improving the Junction with the Leicester Line and also for a New Engine Shed will be let within the next few months.

The widening of the Trent Valley Railway between **Armitage** and **Rugeley** has been completed, and one of the additional lines has been brought into use for Goods traffic.

The alterations and additions to the Low Level Goods Yard at **London Road Station, Manchester,** are nearly finished, and the greater part is already in use.

The New Goods Sidings at **Heaton Norris** are complete, and additional accommodation for Goods traffic is being provided at **Diggle** and **Warrington** (Bank Quay) Stations.

At **Earlestown,** the Wagon Works are being extended by the building of a new Wagon Shop, Brass Foundry, and Turning Shop, and at **Edge Hill Station,** Liverpool, a Reinforced Concrete Gantry and Bunkers are being constructed to facilitate the coaling of locomotives, the work being in an advanced state.

A Contract has recently been let and the Works commenced for the widening of the Chester and Holyhead Railway between **Abergele and Llandulas,** which it is expected will be opened during the present year. A Contract has also been let for the construction of a New Goods Station at **Blackwood** on the Sirhowy Line.

The new regulations of the Board of Agriculture respecting the importation of Cattle from Ireland have necessitated the construction of a Slaughter House, large Cattle Sheds, and other accommodation at **Holyhead.** The greater part of these Works is complete and in use.

On the Great Western Joint Lines, the new Coal Depôt and Sidings at **Hinderton Field,** near **Birkenhead,** and the New Luggage Bridge and Electric Lifts at **Rock Ferry Station** have been completed and brought into use. Alterations have been carried out to give improved Booking and Parcel Office accommodation at **Ellesmere Port** Passenger Station, and a Contract has recently been let for additional Goods accommodation at that place. New Sidings and Landings are being provided at **Abbey Foregate, Shrewsbury,** for the traffic in connection with the Royal Agricultural Show to be held at that place at the beginning of July next; portions of the Sidings will be retained and form part of a permanent scheme of Loops and Sidings, designed to give increased facilities for dealing with the ordinary traffic.

REPORT

1. The Accounts and Statistical Returns for the year ending 31st December, 1913, presented herewith, are compiled in the new form prescribed by the Railway Companies (Accounts and Returns) Act, 1911. They cover the whole year and differ in many details from those hitherto prepared half-yearly under the Regulation of Railways Act, 1868. Comparative figures cannot therefore be given on this occasion.

2. **Capital Expenditure.**—The expenditure on Capital account for the year was £230,470, details of which are given in Account No. 5.

3. **Revenue Account.**

Per Account No. 8:—	
Receipts	£6,101,262
Expenditure	4,054,577
Net Receipts	2,046,685
Miscellaneous Receipts (net)	143,817
Total Net Income	£2,190,502
Per Account No. 9:—	
Add, Balance from last Account	36,842
Total	£2,227,344
Deduct, Interest, Rentals and other Fixed Charges	595,020
Balance after payment of Fixed Charges	£1,632,324
Deduct, Dividends on Guaranteed and Preference Stocks	738,526
Balance available for Dividend on Ordinary Stock	£893,798

After making allowance for altered allocation under various heads, the Company's Revenue Account for the year shews an increase in Receipts of £254,668; in Expenditure of £123,477; and in Net Revenue of £131,191, made up as follows:—

		Increased Receipts. £	Increased Expenditure. £	Increased Net Revenue. £
Railway—Passenger Train Traffic	£108,810			
Goods Train Traffic	£ 84,166	192,976	76,464	116,512
Steamboats		27,548	14,565	12,983
Southampton Docks		22,264	10,154	12,110
Miscellaneous Receipts and Payments		11,880	22,294	*Dr. 10,414*
		£254,668	£123,477	£131,191

The increased expenditure on "Railway" is accounted for by Wages £50,000, National Insurance £9,000, Rates and Taxes £6,000, and various causes £11,000.

4. **Dividend.**——After deducting from the amount available for dividend on the Ordinary Stock the interim dividend, amounting to £288,451, paid on this Stock for the first half of the year 1913, there remains the sum of £605,347, which admits of the payment of a dividend of $3\frac{7}{8}$ per cent. for the second half of the year, making $5\frac{7}{8}$ per cent. for the year and leaving a balance of £42,599 to be carried forward.

The dividends paid on the Ordinary Stock for the year 1912 were $1\frac{1}{2}$ per cent. for the first half of the year (when £45,000 was taken from Reserve), and $3\frac{7}{8}$ per cent. for the second half, making $5\frac{3}{8}$ per cent. for the year, with a balance of £36,842 carried forward.

For the year 1913 the Dividend on the Preferred Converted Ordinary Stock is at the full rate of 4 per cent., and on the Deferred Converted Ordinary Stock at the rate of $1\frac{7}{8}$ per cent., which compares with $1\frac{3}{8}$ per cent. for the year 1912.

5. **New Works.**——Good progress has been made during the past year with the re-construction and enlargement of Waterloo Station. Eleven new platforms on the south side are in use, and a further section of the Offices has been completed.

At Hampton Court Junction near Surbiton a fly-over line for the down trains to Hampton Court is being constructed.

At Southampton the enlargement of the Trafalgar Graving Dock has been completed and the Dock has been used by several large steamers including the S.S. "Olympic" of 45,000 tons.

6. **Electrification.**——Various contracts have been let in connection with the electrification of the Company's suburban lines mentioned in the last Report, and the work is proceeding.

7. **Parliamentary.**——The Bill promoted by the Company and approved by the Proprietors at the Special (Wharncliffe) Meeting on the 7th February, 1913, has received the Royal assent under the title of "The South Western Railway Act, 1913."

The Directors have not found it necessary to present a Bill in the present Session of Parliament.

Any Bills or Provisional Orders promoted by other Companies or Public Authorities and affecting the interests of this Company will receive careful attention.

8. **Direction.**——The Directors retiring by rotation on this occasion are Mr. Evelyn Cecil, M.P., and Sir Charles J. Owens, who are eligible and offer themselves for re-election.

9. **Auditors.**——Mr. H. W. Notman, the retiring Auditor, who has filled the office to the Company's advantage for the past 15 years, does not, on account of failing health, seek re-election. It will, therefore, be necessary for the Proprietors at the forthcoming Meeting to elect an Auditor in his place.

10. **Special Meeting.**——At the conclusion of the Ordinary Meeting a Special Meeting will be held for the purpose of bringing the following matters before the Proprietors and obtaining sanction thereto, viz. :—

(1) The creation, issue and disposal of the Share Capital, £1,500,000, and Loan Capital, £500,000, authorised by the South Western Railway Act, 1913.

(2) The making of a renewed Agreement between the Company and the Salisbury Railway and Market House Company whereby the working of that Company's short branch line at Salisbury will be continued in the Company's hands for a further period of 10 years from the 1st July, 1914.

HUGH DRUMMOND,
Chairman.

WATERLOO STATION, LONDON,
18*th February*, 1914.

The dividends are payable on Tuesday, the 10th March, 1914, and, except in those cases where instructions have been given for payment in a different manner, the warrants will be posted to the Proprietors on the preceding day.

Proprietors are requested to give notice of any change of address, so that their dividend warrants may not be mis-sent.

SIR PHILIP FREDERICK ROSE, Bart, Rayners, Penn, Bucks.

THE LORD EDMUND BERNARD TALBOT, M.V.O., D.S.O., M.P., 1, Buckingham Palace Gardens, S.W.

Report of the Directors and Financial Accounts, with Statistical Returns, for the year ending the 31st December, 1913, to be submitted to the Proprietors at their Meeting to be held in the Offices of the Company at the London Bridge Terminus, on WEDNESDAY, the 25th day of February, 1914, at Twelve o'clock noon precisely.

1. The Accounts are prepared in the form prescribed by the Railway Companies (Accounts and Returns) Act, 1911. They differ so widely from the old form that the usual comparative tables illustrating the course of the Company's business cannot be given.

CAPITAL ACCOUNT.

2. The net total Capital Expenditure amounts to £99,418 and the details thereof will be found set forth in Financial Account No. 5.

3. The major portion of this expenditure has been incurred in equipping the suburban railways for electrical working under the scheme which was approved by the Proprietors at the last meeting.

The first section of railway put in hand is that between Balham and Wallington, through West Croydon, and good progress has been made with the work since the contract was let.

A contract has been made for the supply of the additional rolling stock which will be required, and deliveries will commence during the present year.

REVENUE ACCOUNT.

4. The result of the year's working may be stated shortly as follows:—

Total net income			£1,534,911
Balance brought from 1912			29,244
		Together	£1,564,155
Fixed Charges	£378,445		
Dividends on Guaranteed and Preference Stocks (on account of which an interim payment for the half-year ending the 30th June last has been made)	603,876		
			£982,321
Balance available for Dividends on the Ordinary Stocks			£581,834

5. In addition to the above-mentioned interim dividend payment on Guaranteed and Preference Stocks, interim dividends of £1 5s. per cent. on the Undivided Ordinary Stock and £2 10s. per cent. on the Preferred Ordinary Stock for the half-year ending the 30th June last were declared by the Board and paid, and these last mentioned dividends together amounted to £130,589.

6. There now remains, therefore, a balance of £451,245, which enables the Board to recommend the following further dividends, that is to say—

£4 0 0 per cent. on the Undivided Ordinary Stock (making 5¼ per cent. for the whole year)	£111,174
£3 10 0 per cent. on the Preferred Ordinary Stock (making 6 per cent. for the whole year)	£134,185
£4 10 0 per cent. for the whole year on the Deferred Ordinary Stock	£172,524
Total	£417,883

leaving a balance of £33,362 to be carried forward to the present year.

7. The Directors to retire by rotation are Lord Henry Nevill, Mr. Gooday, Admiral Brand and Lord Bessborough, and, being eligible for re-election, they all offer themselves accordingly.

8. One of the Auditors, Mr. James Ford, goes out of office by rotation, and he offers himself for re-election.

9. The Board has received an intimation from a Proprietor of his intention to move a resolution at the meeting with regard to the remuneration of the Auditors, and the notice convening the meeting refers to this proposal.

10. The Agreement regulating the joint service between London and Paris by way of Newhaven and Dieppe expires at the end of the present year, and negotiations have been proceeding between the French State Railway Administration and the Company with the view to its renewal.

These negotiations have resulted in the settlement of the terms of a new Agreement to which it is necessary to obtain the sanction of the Proprietors, and a special meeting has been convened for the purpose, when the Agreement will be submitted and explained.

11. A Bill has been deposited by the Company for promotion in the forthcoming session of Parliament, and its objects are stated in the circular announcing the Wharncliffe meeting to be held immediately after the above-mentioned special meeting, when the Bill will be submitted for approval.

12. The Board proposes that the dividends shall be payable on and after Wednesday, the 4th proximo, by warrants posted to the Proprietors at their registered addresses, or elsewhere as they may have directed.

REPORT OF THE DIRECTORS,

WITH STATEMENT OF ACCOUNTS FOR THE YEAR ENDED DECEMBER 31st, 1913,

To be submitted to the Ordinary General Meeting of the Company, to be held on February 4th, 1914.

---

1. The Directors submit herewith the Company's Accounts for the Year ended the 31st December last, which have been prepared in the form prescribed by the Railway Companies (Accounts and Returns) Act, 1911, and together with them the Accounts of the Managing Committee of the South Eastern and London, Chatham and Dover Railways, for the same period. It will be seen that the proportion of the Net Revenue payable to the Company by the Managing Committee is £746,905 12s. 0d., as compared with £732,548 3s. 3d. for the year 1912, being an increase of £14,357 8s. 9d. To this is added other net receipts of the Company, as shewn in the Revenue Account No. 8, amounting to £69,287 15s. 5d.; resulting in a balance of £816,193 7s. 5d., which is carried to the Net Revenue Account.

2. The appropriation of the Net Revenue will be found on reference to Account No. 9. After meeting the current charges for Debenture Interest, Rents, and Payments due to other Companies, there remains a balance of £401,738 4s. 3d.

3. Out of the above sum of £401,738 4s. 3d., the Board recommend the Proprietors to pay a Dividend of £2 5s. 0d. per cent. upon the Arbitration Preference Stock, making with the interim dividend paid in August last the full dividend of £4 10s. 0d. per cent. for the new financial year ended the 31st of December, 1913. The Net Revenue earned during the twelve months also enables the Board to recommend the payment of a dividend of £1 10s. 0d. per cent. on the Second Preference Stock, leaving a balance to be carried forward to next year's Account of £85,934 15s. 8d., as compared with £84,101 12s. 7d. last year. If the proposed Dividends receive the sanction of the Meeting, they will be payable on the 18th February.

4. The expenditure on Capital Account during the Year amounted to £160,558 2s. 5d. full particulars of which are given in Account No. 5, and in Statement No. 5 of the Accounts of the Managing Committee.

5. *Directors.*—The Board have to record, with deep regret, the death in June last of their distinguished colleague the Right Hon. George Wyndham, M.P. The vacancy on the Board, caused by his death, has been filled by the appointment of Lieut.-Col. Sir Arthur Yorke, C.B., R.E., who for many years acted as Chief Inspector of Railways of the Board of Trade.

The work on the Queen's Park Extension and Oxford Circus Escalators is also well advanced.

6. The London Electric Railway Act, 1913, the Bill for which was approved by the Proprietors at a Special Meeting held on the 31st January, 1913, received Royal Assent on the 15th August, 1913.

The Directors have elected the Rt. Hon. Lord Farrer as Chairman in his place, and the Rt. Hon. REPORT OF THE DIRECTORS.

1. The Statement of Accounts and the Statistical Returns for the year ended the 31st December, 1913, are presented with this Report.

The Accounts are prepared in the new form prescribed by the Railway Companies (Accounts and Returns) Act, 1911. They cover the whole year, and in consequence of the adoption of the new form of Accounts the usual comparison of figures cannot on this occasion be given.

The following is a summary of the Receipts and Expenditure on Revenue Account:—

Per Account No. 8.	
Gross receipts of Railway, etc.	£914,307
Expenditure	522,910
	£391,397
Miscellaneous receipts (net) from rents, interest, etc.	176,441
Total net income	£567,838
Per Account No. 9.	
Add Balance from last account	9,496
	£577,334
Deduct:—	
Interest, rentals and other fixed charges, and appropriation to Renewals	252,560
	£324,774
Dividends on Preference Stocks	211,482
Balance available for Dividend on Ordinary Stock	£113,292

The interim dividend at the rate of £1 : 10*s.* 0*d.* per cent. per annum, which was paid on the Ordinary Stock for the half-year ended 30th June, 1913, absorbed £48,463, leaving a balance of £64,829, which will admit of the payment of a dividend at the rate of **£1 : 15***s.* **0***d.* per cent. per annum for the half-year ended 31st December, 1913, making **£1 : 12***s.* **6***d.* per cent. for the year, and leaving a balance of £8,258 to be carried forward.

The dividends paid on the Ordinary Stock for the year 1912 were at the rate of £1 : 10*s.* 0*d.* per cent. per annum for the half-year ended 30th June and £1 : 15*s.* 0*d.* per cent. per annum for the half-year ended 31st December, making £1 : 12*s.* 6*d.* per cent. for the year, with a balance of £9,496 carried forward.

The Electrical Depreciation Fund now stands at £65,821, and it is not considered necessary to make any further addition to that Fund at the present time. A General Renewals Fund has, however, been created, and £12,500 has been transferred to it.

The Surplus Lands Committee announce, as shown in the Report and Accounts appended hereto, that the interim dividend on the Surplus Lands Stock for the half-year ended 30th June, 1913, was at the rate of £2 : 15*s.* 0*d.* per cent. per annum, and that the dividend for the half-year ended 31st December, 1913, will be at the same rate. This compares with £2 : 15*s.* 0*d.* per cent. per annum for the year 1912.

2. The high price of Coal and other materials during the past year, coupled with the enhanced rates of wages paid to the staff, have had the effect of seriously increasing the expenses, but the Directors are glad to be able to report that as the result of economies in working and the opening up of new sources of revenue they are able to recommend the same dividend as in the previous year.

3. The competition of motor omnibus services continued to have an adverse effect upon the short-distance Passenger Traffic throughout the year, but there are indications that this competition is becoming less severe. Outside the competitive area traffic continues to develop, and the additional facilities for dealing with it which will be afforded by the widening of the Line between Finchley Road and Wembley Park will assist materially in this direction.

The Season Ticket business maintains the steady progress which it has shown for some years past, and the receipts from Goods and Mineral Traffic also show a satisfactory advance.

The policy of developing the Company's surplus lands and properties and of utilising open spaces over the Line has been continued, with the result that the rents again show the substantial increase for the year of £4,500. Compared with the year 1907 the rents have increased by the annual sum of £20,000.

The Great Northern and City Railway was formally vested in the Company's Undertaking on 1st July last, and the receipts and expenses of that Line from the date named are included in the figures now presented.

4. The installation of special grates for the Boilers in the Generating Station at Neasden has enabled the Company to make use of less expensive descriptions of Coal, and considerable economy has resulted therefrom.

In order that the Current for working the Great Northern and City Line may be obtained on the most economical basis, provision is being made for its supply from the Neasden Generating Station. Contracts have been placed and the works are in progress. They include the erection of a sub-station with the necessary equipment at Drayton Park, the installation of additional switchgear at the Moorgate Street sub-station and the requisite connecting cables.

The East London Railway was opened for Electrical Passenger Train working on 31st March last, and a steady improvement in the earnings of that Railway is being shown. In accordance with an arrangement entered into with the Lessee Companies of the East London Line the Train Service is being provided and worked by this Company.

A new Station was opened on the Uxbridge Branch at West Harrow for Passenger Traffic on 17th November last. It has already proved to be a great convenience to the public, and will be an important factor in the development of building operations in the district.

The Directors have been considering for some time past what course should be taken to improve the earning capacity of the Hammersmith and City Railway—which is the joint property of the Metropolitan and Great Western Companies—and to develop the traffic upon it. As a step in this direction, an agreement has been entered into with the Great Western Company, under which the Line will in future be more directly under the management of this Company, and a number of improvements, including the construction of new Stations at Goldhawk Road and Uxbridge Road respectively, are provided for. There is every reason to believe that these measures will result in an appreciable increase of traffic.

Arrangements are being made with the London and South Western Railway Company for the running of a through electrical service of this Company's trains between the City and Richmond *viâ* the Hammersmith Line.

The widening of the Line between Finchley Road and Wembley Park and the reconstruction of the Stations at Finchley Road and Neasden have advanced rapidly during the year. Sections of the widened Lines have been completed and brought into use, affording greatly improved facilities in the working of the Train Service.

The erection of the General Offices at Baker Street has been completed during the year, and the various departments which have hitherto been located at different parts of the line have been transferred to them. The rents that will be obtained for the vacated premises and the economies that will result from the concentration of staff, etc., will show a fair return on the cost of the new building.

A large block of Flats has been constructed over the railway near Regent's Park and is nearly ready for occupation. It is anticipated that the whole of the Flats will speedily be let at advantageous rentals. A contract has also been let for the building of a block of shops and flats in the front of the new Finchley Road Station on a valuable site obtained by girdering over a part of the line.

The re-construction of Praed Street Station, Paddington, is nearly completed, and arrangements have already been made for the occupation of the new shops and tea-room at satisfactory rentals.

The arrangements with the Strand Hotel Company, Limited, for the building by this Company of an hotel on the site created over and adjoining the new Station at Baker Street have necessitated the purchase of some further properties. These have now been acquired, and a contract for the execution of the work will shortly be entered into.

In order to afford increased facilities for through communication between the Company's Railway and the Baker Street and Waterloo Railway at Baker Street, an agreement has been entered into with the London Electric Railway Company for the installation at joint expense of Escalators at that Station. A contract for carrying out the works has been let, and the necessary excavations are being proceeded with.

The freehold interests in the land required for the authorised extension to Watford are being acquired, and it is expected that a contract for the construction of the railway will shortly be let.

5. A Resolution will be submitted at the conclusion of the ordinary business with a view to the creation of the Capital authorised by the Metropolitan Railway Act, 1913.

6. The Bill promoted by the Company in the last Session of Parliament for the acquisition of the Great Northern and City Railway by the Company received the Royal Assent on the 15th August last, and the extension of that Line from Moorgate Street to Lothbury was also sanctioned.

After the purchase of the Great Northern and City undertaking was arranged, the Great Northern Company approached this Company with a view to their becoming partners in the line, and the negotiations that ensued resulted in an agreement for the promotion of a Joint Bill, of which the following are the main objects: –

(1) The Great Northern Company at their own expense to construct a junction between their line and the Great Northern and City Railway in the neighbourhood of Drayton Park, which will enable their main line suburban trains to be brought through to the City, and so accomplish the original object of the undertaking.

(2) The Great Northern Company to bear one-half the expense of constructing the proposed railway to form a junction with the Metropolitan Inner Circle Railway, and the extension of the line from its present terminus at Moorgate Street to Lothbury and the Bank.

(3) A joint Committee of the Metropolitan and Great Northern Companies to take a lease of the Great Northern and City line at a rent equal to the dividend on the stocks of the Metropolitan Company issued as the purchase price to Shareholders of the Great Northern and City Company.

(4) All profits earned above the rent to be divided equally between the two Companies.

The joint Bill for carrying out these arrangements has been deposited, and will be submitted to the Proprietors at a meeting of which due notice will be given.

Any Bills promoted by other Companies or Public Authorities which concern the interests of this Company will receive careful scrutiny at the hands of the Directors.

7. The Directors regret to announce the retirement from the Board of Mr. Jabez Light and Mr. Thomas Parker, who have rendered excellent service to the Company for a number of years past. One of the vacancies thus caused has been filled by the election of Mr. Evelyn Hubbard, and in accordance with the vote of the Proprietors at their last meeting the Earl of Lauderdale has joined the Board.

8. The Directors retiring by rotation are Lt.-Col. Clifford Probyn, D.L., J.P., Mr. Paul Speak, and Sir Clarendon G. Hyde, who are eligible and offer themselves for re-election.

9. The retiring Auditor is Mr. Joseph Gurney Fowler, who is eligible and offers himself for re-election.

10. The Directors recommend that the Dividends in respect of the past half-year be payable on 20th February proximo.

ABERCONWAY,
Chairman.

REPORT OF THE BOARD OF DIRECTORS

Of the Midland Railway Company to the Annual General Meeting of the Proprietors, to be held at the Railway Station, Derby, on Thursday, the 26th day of February, 1914.

Accounts.

1.—The Statement of Financial Accounts and Statistical Returns for the year 1913 is submitted to the Shareholders with this Report.

Traffic.

2.—The Directors have to report that the Receipts from Traffic carried upon the Railway for the year 1913 as compared with the year 1912 shew an increase from Passenger Train Traffic of £547,000, and from Goods Train Traffic of £550,000, being a total increase of £1,097,000. £322,000 of this increase is attributable to the acquisition of the London, Tilbury and Southend Railway, and to the consequent merging of the Revenue of that Railway in the Accounts of the Midland Company as and from the 1st July, 1912.

Revenue Accounts.

3.—In consequence of the many important changes made in the Form of Accounts in pursuance of the Railway Companies' (Accounts and Returns) Act, 1911, which came into operation on the 1st January, 1913, and of the acquisition of the London, Tilbury and Southend Railway in 1912, the following summary of the Receipts and Expenditure on Revenue Account cannot be put in comparison with the corresponding figures of 1912:—

Full dividends at the rate of £2 : 10 : 0 per cent. on the Consolidated Perpetual Guaranteed Preferential Stock and the Consolidated Perpetual Preference Stock.

£6 : 15 : 0 per cent. on the Ordinary Stock, which will give:—

£2 : 10 : 0 per cent. on the Preferred Converted Ordinary Stock;

£4 : 5 : 0 per cent. on the Deferred Converted Ordinary Stock.

Parliamentary Session, 1913.

6.—The Bill in Parliament in the Session of 1913 to authorise an increase in the Company's contribution to the Superannuation Fund Association received the Royal Assent on the 15th August last.

Session, 1914.

A Bill has been promoted in the present Session to authorise various new works required for the proper development of the passenger traffic on the Tilbury Railway; the issue of securities to Bearer; and other matters of minor importance.

The new Capital proposed to be authorised is £1,000,000, with the usual Borrowing Powers.

The Bill requires the sanction of the Proprietors at the Wharncliffe Meeting. A Bill promoted by the North Eastern Railway Company will also be submitted, in reference to powers sought by the South Yorkshire Joint Line Committee for the construction of a Branch Railway to the Tickhill Colliery.

Capital.

7.—A Resolution will be submitted at the Meeting to authorise the creation and issue of further Capital in pursuance of Section 35 of the Midland Railway Act, 1902.

The Accounts show that at the 31st December last the Company had the sum of £2,979,381 at the Banks or on deposit; the cash resources are, therefore, ample for immediate requirements, and the Resolution that will be proposed, for the purpose of creating this Capital, as well as the further powers sought in the Company's Bill, are necessary to preserve a proper relation between the powers of the Company and their commitments, and are not required for the purpose of an immediate further issue of Capital.

General Reserve.

8.—The unexpended portions of the special allocations for signalling equipment, which have been made from time to time, appear in the Balance sheet; the other sums specially allocated at various times, and referred to in the Half-yearly Reports, are included in the Depreciation Fund, which amounts to £2,535,040; in addition to the General Reserve Fund which, with the appropriation now recommended, amounts to £1,044,162.

Accident at Aisgill.

9.—The Directors desire to record their deep sorrow at the accident which occurred at Aisgill in the month of September last, and to express their sympathy with those affected.

Provision has been made in the accounts for the cost of the accident.

Retiring Directors.

10.—The Directors retiring by rotation at this Meeting are Mr. James Walker Oxley, Mr. Charles Booth, and Mr. Alan Garrett Anderson, all of whom are eligible for re-election.

Retiring Auditor.

11.—The Auditor retiring by rotation is Mr. George Balderston Kidd, who does not offer himself for re-election.

Audit Committee.

12.—It is necessary for the Proprietors at this meeting to appoint Five persons, each holding not less than £2,000 of Preferred Converted Ordinary Stock, and £2,000 of Deferred Converted Ordinary Stock of the Company, to meet in January, 1915, to select and recommend to the next Annual General Meeting a suitable person to be appointed in the place of the Auditor then retiring by rotation.

G. MURRAY SMITH,
CHAIRMAN.

REPORT

OF THE DIRECTORS

To be submitted to the Proprietors at the Annual General Meeting to be held at York, on Friday, the 27th day of February, 1914, at 12-15 p.m.

The Accounts for the Year ended 31st December, 1913, are herewith presented to the Shareholders in the form prescribed by the Railway Companies (Accounts and Returns) Act, 1911.

After providing for Interest, Rents, and other Preferential Charges; setting aside £150,000 for electrical equipment of lines and £50,000 for Pensions; carrying £50,000 to General Reserve and £50,000 to Suspense Account (Renewals and Contingencies), and deducting the interim dividend declared and paid in respect of the half-year ended 30th June last, amounting to £880,586 0s. 6d., there remains a balance of £1,496,502 18s. 3d. available for further dividend on North Eastern Consols, and the Directors recommend that a final dividend for the year be declared thereon of 4¼%, making, with the interim dividend of 2¾% already paid, 7% for the year.

This will absorb the sum of £1,361,555 14s. 3d., and leave a balance of £134,947 4s. 0d. to be carried to the next year's account.

The Directors propose that the dividends shall be payable by warrant on the 7th March next, and that the warrants be posted on the 6th March.

Comparing the Railway receipts and expenditure for the past year with the adjusted figures for 1912, there is an increase of £1,155,097 in gross receipts, and of £681,585 in working expenses, resulting in an increase of £473,512 in the net railway receipts. There is a further increase in the net receipts from other sources of £30,754, making a total increase in the net receipts from the whole undertaking of £504,266.

The large increase in revenue is due to a period of great prosperity in trade, but in making a comparison with the year 1912 account must be taken of the fact that the coal strike occurred in the first half and a strike of the Company's men in the second half of that year.

It is hoped that the Hull Joint Dock, the Coal Staiths on the Tyne at West Dunston, and the Oil Jetty at Salt End, Hull, will be opened for traffic during the Summer.

Satisfactory progress has been made with the railway to Seaton Sluice and the new station at Monkseaton, the extension of the sidings at Dairycoates, Hull, and the electrification of the line between Shildon and Newport (Middlesbrough).

The Bill promoted by the Company in the last Session received the Royal Assent in August last.

A Bill for general purposes has been deposited in Parliament. Among the works included in the Bill are:—A deep water quay on the Tees, near Middlesbrough; a widening of the Company's Newcastle and Berwick Railway at Long Benton and a short curve connecting that railway with the Company's Blyth and Tyne Railway; also two short colliery lines proposed to be constructed by the South Yorkshire Joint Line Committee. Powers are also sought to run trolley vehicles over the Company's High Level Bridge at Newcastle.

A provisional agreement has been entered into by the Directors for the purchase of the undertaking of the Scarborough, Bridlington and West Riding Junction Railways Company, and authority is sought in the Bill for carrying this agreement into effect. The line, which runs from Market Weighton to Driffield, is at present worked by this Company under a perpetual agreement. Under the agreed terms of purchase the Stockholders of the Scarborough, Bridlington and West Riding Junction Railways Company will receive £108,000 North Eastern Railway Debenture Stock and £112,350 North Eastern Consols.

The capital proposed to be raised under the powers of the Bill is £600,000.

The Hull & Barnsley Railway Company are promoting a Bill in which are included, by arrangement with this Company, provisions extending the powers conferred upon the two Companies by the Hull Joint Dock Act, 1899, for the construction of the works thereby authorised.

These two Bills will be submitted to the Proprietors for their approval at a Special Meeting to be held at the conclusion of the Annual General Meeting.

The following Directors retire by rotation:—Mr. William Cresswell Gray, the Right Hon. Earl Grey, Mr. John Henry Brunel Noble, the Right Hon. Viscount Ridley, Mr. Edmund Russborough Turton, and Mr. Murrough John Wilson. All are eligible, and offer themselves for re-election.

One of the Auditors, Sir William Barclay Peat, retires by rotation. He is eligible, and offers himself for re-election.

REPORT OF THE DIRECTORS

TO BE SUBMITTED

To the Proprietors at the Annual General Meeting to be held at the Cannon Street Hotel, London, on Wednesday, the 4th February, 1914, at 12.30 p.m., or as soon thereafter as the Joint General Meeting of the Proprietors of the South Eastern and London Chatham & Dover Railway Companies, convened for 12 o'clock Noon, shall be concluded.

The Directors submit the Accounts of the Company for the Year 1913, together with a copy of the Accounts of the South Eastern and Chatham Railway Companies' Managing Committee for the same period, which have been prepared in accordance with the Railway Companies (Accounts and Returns) Act, 1911.

The Accounts show that there is a balance available for Dividend on the Year's working of £406,168 : 6*s.* 7*d.*

In August, 1913, Interim Dividends were paid of **15***s.* per cent. on the Undivided Ordinary and £1 : 10*s.* 0*d.* per cent. on the Preferred Ordinary Stock, absorbing a sum of £75,369 : 7*s.* 0*d.*, and there is now a balance of £330,798 : 19*s.* 7*d.* available for division.

This will permit a final dividend for the Year 1913 of **£3 : 5***s.* **0***d.* per cent. on the Ordinary Stock, making, with the Interim payment, **£4** per cent. for the Year 1913, leaving a balance of £4,199 : 2*s.* 7*d.* to be carried forward to the next Account.

Upon the Preferred Ordinary Stock a Dividend can be paid of **£4 : 10***s.* **0***d.* per cent., which, with the interim payment of £1 : 10*s.* 0*d.* brings up the amount for the Year to the full Dividend of **£6** per cent. Upon the Deferred Ordinary Stock a Dividend of **£2** per cent. for the Year 1913 can then be paid.

The Dividends will be paid on **Friday, the 13th February next.**

The expenditure on Capital Account during the Year amounted to £198,157 : 5*s.* 3*d.*, full particulars of which are given in Statement No. 5 of the Accounts, and in Statement No. 5 of the Managing Committee's Accounts.

Directors.——The Directors who retire at the ensuing Meeting are:—Sir Frederick Harrison, The Lord Hothfield, and Edward William Mellor, Esquire, who, being eligible, offer themselves for re-election.

The Directors have to record, with deep regret, the death of their colleague, Mr. Vincent Walker Hill, whose knowledge and long experience as an officer, formerly of the London Chatham & Dover Railway Company, and more recently of the Managing Committee, was of so much benefit to the Proprietors of the two Companies.

It is not proposed to fill the vacancy on the Board caused by Mr. Hill's death, as the number of the Directors was provisionally increased to allow of his election.

The vacancy on the South Eastern & Chatham Railway Companies' Managing Committee has been filled by the appointment of Sir David Lionel Salomons, Bart.

AUDIT COMMITTEE.——The Members of the Proprietors' Audit Committee retire at this Meeting.

They are:—Alfred Barron Bosher, Esq., Lieut.-Colonel Clifford Probyn, J.P., Emmanuel Michael Rodocanachi, Esq., and Richard White, Esq. These gentlemen are willing to serve upon the Committee for the ensuing year.

AUDITOR.——Mr. Philip Beresford Beresford-Hope will retire at the ensuing Meeting, and, being eligible, offers himself for re-election. The Audit Committee recommend his re-election.

The Directors and Auditors will attend at the **Offices of the Company, London Bridge Station,** on **Tuesday, the 3rd February, between the hours of 12 and 1 p.m.,** to render explanations of the Accounts to such of the Proprietors as may be desirous to obtain them.

H. COSMO O. BONSOR,
Chairman.

As the Accounts are compiled in a totally new form, the Committee are unable to submit the usual detailed comparison of figures with those of the preceding Year.

The Index, page 20, affords a convenient reference to the various Accounts and Returns.

The net result of the Year's working is that there is a balance of Revenue of £1,821,720 19s. 7d., divisible between the two Companies as follows:—South Eastern Railway, £1,074,815 7s. 7d., and London Chatham and Dover Railway, £746,905 12s. This compares with an amount of £1,786,702 16s. 9d. divisible in the Year 1912 (S.E.R. £1,054,154 13s. 6d.; L.C.&D.R. £732,548 3s. 3d.).

The increase in Gross Receipts compared with 1912, is £209,000, as published.

The increase in the Expenses is £174,000, made up as follows:—

	£
Maintenance of Way and Works	3,700
Repairs and Renewals of Rolling Stock	40,000
Locomotive Running Expenses	65,600
Compensation	3,000
Rates	10,000
National Insurance	8,000
Steamboat Expenses	17,000
Traffic Expenses	26,000
General Charges	700
	£174,000

Of the increase, £33,000 is accounted for by Higher Rates of Pay, £43,000 by Higher Prices of Coal and Materials, £10,000 by Higher Poundage in Rates, and £11,000 by the New Steamboat Service commencing 1st July. The extra cost of preparing the Annual Accounts is £1,000.

PARLIAMENTARY.

The Committee have not found it necessary to promote a Bill in the ensuing Session of Parliament.

The Capital Expenditure of the Committee during the Year was £366,649, compared with £176,767 in the Year 1912.

Rhondda & Swansea Bay Railway.

REPORT OF THE DIRECTORS.

To be submitted to the Proprietors at the Annual Ordinary General Meeting, to be held at the Hotel Metropole, Wind Street, Swansea, on Saturday, the 21st day of February, 1914.

Accounts.

Your Directors submit herewith the Accounts duly audited, together with the Statistical Returns for the year 1913, prepared in accordance with the requirements of the Railway Companies (Accounts and Returns) Act, 1911.

As, under that Act, the Accounts have to be compiled in a new form, and cover a period of twelve months, it has not been found possible to make the usual comparisons.

Dividends.

After payment of the interim dividends in August last on the Preference and Ordinary Shares, interest on the Debenture Stock for the year, and the Dividend on the Preference Shares for the second half of the year, there will be payable on the Ordinary Share Capital for the same period, a Dividend at the rate of Five per cent. per annum, making, with the interim dividend, the Dividend of Five per cent. for the year secured to the Shareholders under the Agreement with the Great Western Railway Company, and the Directors recommend payment of such Dividend accordingly.

Parliamentary.

A Bill has been deposited in Parliament, to authorise the construction by the Company of two short branch lines at Aberavon, for additional Capital powers, and for other purposes.

This Bill will be submitted to the Proprietors at the Special General Meeting to be held at the conclusion or adjournment of the business of the Annual Ordinary General Meeting.

The Great Western Railway Company also have deposited a Bill in Parliament to authorise, amongst other things, certain alterations in your railways at Aberavon so as to do away with the level crossings there, of the Great Western Railway and the main county road. One half of the cost of these alterations will fall upon this Company under the provisions of section 42 of the Rhondda & Swansea Bay Railway Act, 1882, and the Bill is having the careful attention of your Directors with a view to your interests being protected.

Retiring Directors.

Mr. George Deer and Mr. F. E. Jacob are the Directors who retire by rotation at the Annual Ordinary General Meeting, and, being eligible, they offer themselves for re-election,

Auditor.

Through the demise of Mr. R. G. Cawker, one of the Company's Auditors, a vacancy has been created which it will be for the Proprietors to fill.

During the early part of last year, Mr. Ludlow found it necessary, on account of failing health, to resign the position of Secretary which he had held since the incorporation of the Company, and your Directors have appointed Mr. E. Lewis Jones to succeed him.

Proxies.

A Form of Proxy is enclosed for the use of holders of Ordinary Shares who may be unable to attend the Annual Meeting, and the CHAIRMAN or DEPUTY-CHAIRMAN, in whose favour it is made out, will follow any instructions that may be given as to its use. The Form should be signed and returned to the Secretary, 8, Fisher Street Swansea, so that he may receive it not later than 12 o'clock on the 19th inst.

GEORGE DEER,
Chairman.

SWANSEA, *February 13th, 1914.*

It is proposed to issue the Warrants for the Dividends by post, on February 28th.

The Secretary should be immediately advised of any change of address, so that Warrants may not be mis-sent.

Report of Committee of Management.

—FOR—

Year ending 31st December, 1913.

The Accounts for the past year, made up in accordance with the requirements of the Railway Companies (Accounts and Returns) Act, 1911, having been duly audited, are presented herewith.

The Revenue from all sources amounted to £10,880 18s. 6d., being an increase of £747 3s. 9d. compared with the amount for 1912, the Receipts for the past year being the highest in the history of the Company. It is gratifying to report that our Revenue is steadily increasing each year, as will be seen from appended table:—

Year.	Receipts.
1908	£8167 5 1
1909	8714 5 10
1910	8570 16 9
1911	9489 16 11
1912	10133 14 9
1913	10880 18 6

In the Expenditure side of the Account there is an increase of £346 5s. 9d., due principally to increased cost of material; but our demand on County Council is £400 18s. 0d. less than amount required for 1912.

During the year wind screens were erected at Curraduff Viaduct and Skirlough, and new stores at Tralee. 3½ miles of Permanent Way were relaid with heavy rails and new creosoted sleepers.

Secretary's Office,
Tralee, 6th January, 1914.

THOMAS O'DONNELL, Chairman.
T. J. O'CONNELL, Secretary.

AUDITOR'S REPORT.

I report to the County Council that I have examined the foregoing Accounts and Balance Sheet of the Tralee and Dingle Railway Company, Ltd., with the Books of the Company and the Vouchers relating thereto, and have obtained all the information and explanations I have required.
